Albaraka Türk Provides Up to TL 400 Billion in Funded Credits and Non-Funded Financing Support to the Economy in the First Nine Months of the Year

---

Albaraka Türk has announced its financial results for the first nine months of 2026 via the Public Disclosure Platform (KAP). As Türkiye's first and pioneering participation bank, Albaraka Türk achieved a profit of TL 5.8 billion in the first nine months of 2026, according to consolidated financial results.

Total assets reached TL589 Billion

According to consolidated financial data, Albaraka Türk continued its growth in the first nine months of 2026 with a total of TL 398.6 billion in funded and non-funded financing support provided to the economy. With its asset size reaching TL 589 billion as of the end of September, the bank maintains its **resilient** stance on asset quality. The NPL ratio, recorded at 2.2% in the September 2026 period, remained below sector averages, supporting robust asset quality and a stable position in the industry. The capital adequacy ratio was realized at 17.6%.

The size of the participation funds collected through participation and special current accounts increased by 41% compared to the end of 2025, rising to the level of TL 392 billion.

Despite challenging market conditions, sustainable income growth continues

In his evaluation of the financial statements, Albaraka Türk General Manager and Board Member Malek K. Temsah stated: “The effects of geopolitical developments in the global economy, fluctuations in financial markets, and changing economic dynamics continue to be felt. In light of these developments, as Albaraka Türk, our support to the economy continues. As of September 2026, while our funded and non-funded financing support approaches TL 400 billion, our NPL ratio stands at %2.2, which is below the sector average. Participation funds, which constitute the primary source of our bank's growth strategy, have increased by %41 compared to the end of 2025, reaching the level of TL 400 billion. Particularly, the strong growth in our participation accounts confirms that our bank demonstrates healthy growth while maintaining its growth momentum without compromising asset quality and risk management discipline.

In parallel with our resilient balance sheet structure, our sustainable income growth continues. While our consolidated net profit was TL 5.8 billion in the first nine months of 2026, our average return on equity was realized at the level of 32.5%.

As Albaraka Türk, we remain firmly committed to our sustainable growth journey by strengthening our customer-centric banking approach. Through our investments in technology, artificial intelligence and data-driven initiatives, as well as our innovative partnerships, we

continuously enhance our services to provide our customers with faster, more effective and personalized solutions. While supporting the real sector and SMEs in accessing finance, we continue to expand our international network and work to improve our operational efficiency and the accessibility of our financial services. In line with the fundamental principles of participation finance, we remain committed to creating long-term value for our country's economy and all our stakeholders." he stated.
