Albaraka Türk Katılım Bankası Anonim Şirketi
Independent auditors' limited review report
for the interim period ended September 30, 2013

To the Board of Directors of Albaraka Türk Katılım Bankası Anonim Şirketi:

We have reviewed the accompanying unconsolidated balance sheet of Albaraka Türk Katılım Bankası A.Ş. ("the Bank") as of September 30, 2013 and the unconsolidated statement of income, unconsolidated statement of income and expense items accounted under equity, unconsolidated statement of cash flows and unconsolidated statement of changes in shareholders' equity for the period then ended. These financial statements are the responsibility of the Bank's management. As independent auditors, our responsibility is to issue a report based on the review performed on these financial statements.

We conducted our review in accordance with the accounting rules and policies, and the accounting and auditing standards, set out as per the Banking Act No: 5411. Those standards require that we plan and perform the review to obtain limited assurance as to whether the financial statements are free of material misstatement. A review is principally limited to reviewing financial statements by applying analytical procedures, inquiring as to the integrity of the financial statements and making inquiries of management to obtain information; and hence it is substantially less in scope than an audit and therefore provides a lesser assurance. We have not performed an audit and accordingly we do not express an audit opinion.

Based on our review, nothing has come to our attention that causes us to believe that the accompanying unconsolidated financial statements do not give a true and fair view of the financial position of Albaraka Türk Katılım Bankası A.Ş. as of September 30, 2013 and the results of its operations and its cash flows for the period then ended in accordance with the prevailing accounting principles and standards set out as per the Article No: 37 of the Banking Act No: 5411, and other regulations, communiqués and circulars in respect of accounting and financial reporting and pronouncements made by the Banking Regulation and Supervision Agency.

As explained in detail in Note XXIII of Section Three, the effects of differences between accounting principles and standards set out by regulations in conformity with Article 37 of the Banking Act No: 5411 and the accounting principles generally accepted in countries in which the accompanying financial statements are to be distributed and International Financial Reporting Standards (IFRS) have not been quantified in the accompanying financial statements. Accordingly, the accompanying financial statements are not intended to present the financial position, results of operations and changes in financial position and cash flows in accordance with the accounting principles generally accepted in such countries and IFRS.

Albaraka Türk Katılım Bankası Anonim Şirketi

**Notes related to unconsolidated financial statements
as at September 30, 2013
(Currency - Thousand Turkish Lira)**

Section one

General information

I. History of the Bank including its incorporation date, initial legal status and amendments to legal status:

Albaraka Türk Katılım Bankası Anonim Şirketi (the Bank) was incorporated on November 5, 1984 with the name of Albaraka Türk Özel Finans Kurumu A.Ş, based on the decision of the Council of Ministers numbered 83/7506 and dated December 16, 1983 regarding establishments of Special Finance Houses and obtained the operating permit from the Central Bank of Turkey with the letter numbered 10912 and dated January 21, 1985.

Special Finance Houses, operating in accordance with the Communiqués of Undersecretariat of Treasury and the Central Bank of Turkey based on the decision of Council of Ministers numbered 83/7506, have been subjected to the provisions of the Banking Law numbered 4389 with the change of law dated December 17, 1999 and numbered 4491. Special Finance Houses have been subjected to the provisions of 'Communiqué Related to the Incorporation and Activities of Special Finance Houses' published in the Official Gazette dated September 20, 2001 numbered 24529 by the Banking Regulation and Supervision Agency (BRSA). 'Communiqué Related to the Incorporation and Activities of Special Finance Houses' has been superseded by the 'Communiqué Related to Credit Operations of Banks' published in the Official Gazette dated November 1, 2006 numbered 26333 and the Bank operates in accordance with the Banking Law numbered 5411 published in the Official Gazette dated November 1, 2005 numbered 25983.

The decision regarding the change in the title of the Bank, in relation with the provisions of the Banking Law numbered 5411, was agreed in the Extraordinary General Meeting dated December 21, 2005 and the title of the Bank was changed as "Albaraka Türk Katılım Bankası A.Ş". The change in the title was registered in Istanbul Trade Registry on December 22, 2005 and published in the Trade Registry Gazette dated December 27, 2005, numbered 6461.

The Bank's head office is located in Istanbul and is operating through 144 (December 31, 2012: 136) local branches and 1 (December 31, 2012: 1) foreign branch and with 2.961 (December 31, 2012: 2.758) staff as of September 30, 2013.

II. Shareholding structure, shareholders having direct or indirect, joint or individual control over the management of the Bank and the disclosures on related changes in the current year, if any:

As of September 30, 2013, 54,06% (December 31, 2012: %54,06) of the Bank's shares are owned by Albaraka Banking Group located in Bahrain. 23,05% (December 31, 2012: %22,97) of the shares are publicly traded and quoted on Borsa İstanbul.

(Currency - Thousand Turkish Lira)**

IV. Information on the Bank's qualified shareholders:

The Bank's paid in capital amounting to TL 900.000 consists of 900.000.000 number of shares with a nominal value of TL 1 (full) for each share. TL 486.523 of the paid in capital is owned by qualified shareholders who are listed below:

Name / commercial name	Share amount (nominal)	Share ratio	Paid shares	Unpaid shares
Albaraka Banking Group	486.523	54,06 %	486.523	-

V. Summary on the Bank's service activities and field of operations:

The Bank operates in accordance with the principles of interest-free banking as a participation bank. The Bank mainly collects funds through current and profit sharing accounts, and lends such funds through corporate finance support, retail finance support, profit/loss sharing investment, finance lease, financing commodity against document and joint investments.

The Bank classifies current and profit sharing accounts separately from other accounts in accordance with their maturities. Profit sharing accounts are classified under five different maturity groups; up to one month, up to three months (three months included), up to six months (six months included), up to one year (one year included) and one year and more than one year (with monthly, quarterly, semi annual and annual profit share payment).

The Bank may determine the participation rates on profit and loss of profit sharing accounts according to currency type, amount and maturity groups separately under the limitation that the participation rate on loss shall not be less than fifty percent of participation rate on profit.

The Bank constitutes specific fund pools with minimum maturities of three months, to be allocated to individually predetermined projects for financing purposes. Profit sharing accounts, which are part of the funds collected for project financing purpose, are managed in accordance with their maturities and independently from other accounts and transfers from these accounts to any other maturity groups are not executed. Specific fund pools are liquidated at the end of the financing period.

In addition to its ordinary banking activities, the Bank operates as an insurance agency on behalf of Işık Sigorta, Anadolu Sigorta, Güneş Sigorta, Allianz, Aviva Sigorta, Neova Sigorta, Zurich Sigorta, Ankara Sigorta, Avivasa Emeklilik ve Hayat, Generali Sigorta, as a private pension insurance agency on behalf of Anadolu Hayat Emeklilik and Avivasa Emeklilik ve Hayat, and as a brokerage agency on behalf of Bizim Menkul Değerler A.Ş. through its branches, engages in purchase and sale of precious metals, provides intermediary services in quick money transfers, credit card and member business (P.O.S.) services.

Moreover, the Bank is involved in providing non-cash loans which mainly comprise letters of guarantee, letters of credit and acceptances.

Transactions which can be carried out by the Bank are not limited to the clauses listed above. If any activities other than those mentioned are considered as beneficial to the Bank, the application must be recommended by the Board of Directors, approved by the General Assembly and authorized by relevant legal authorities which then needs to be approved by the Ministry of Customs and Trade since such applications are amendments in nature to the Article of Association. The application is included in the Article of Association after all necessary approvals are obtained.

Albaraka Türk Katılım Bankası Anonim Şirketi

**Notes related to unconsolidated financial statements
as at September 30, 2013
(Currency - Thousand Turkish Lira)**

VI. Differences between the Communiqué on Preparation of Consolidated Financial Statements of Banks and Turkish Accounting Standards with respect to consolidation and Short Explanation about the Institutions Subject to Full or Proportional Consolidation and Institutions which are deducted from Equity or not included in These Three Methods:

The Bank did not consolidate the financial statements of its subsidiary Bereket Varlık Kiralama A.Ş. and its associate Kredi Garanti Fonu A.Ş. considering the materiality principle and its insignificant influence over the associate, respectively and the related subsidiary and associate are carried at cost in the accompanying financial statements. Moreover, the financial statements of the Bank's special purpose entity, Albaraka Türk Sukuk Limited, which is not a subsidiary but over which the Bank exercises 100% control, are not consolidated in the accompanying financial statements considering the materiality principle.

VII. The Existing or Potential, Actual or Legal Obstacles on Immediate Transfer of Equity or Reimbursement of Liabilities between the Bank and Its Subsidiaries:

Immediate transfer of equity between the Bank and its subsidiaries is not an issue.

There is no existing or potential, actual or legal obstacle to the reimbursement of liabilities between the Bank and its subsidiaries. The Bank charges or pays cost of the services according to the service agreements between the Bank and its subsidiaries.

Notes related to unconsolidated financial statements as at September 30, 2013 (Currency - Thousand Turkish Lira)

Section three

Accounting policies

I. Explanations on basis of presentation:

a. The preparation of the financial statements and related notes and explanations in accordance with the Turkish Accounting Standards and Regulation on the Principles and Procedures Regarding Banks' Accounting Application and Safeguarding of Documents:

The Bank prepares legal records, financial statements and the documents constituting the basis for financial statements in accordance with the "Regulation on Accounting Applications for Banks and Safeguarding of Documents", "Turkish Accounting Standards" ("TAS") put into effect by Public Oversight Accounting and Auditing Standards Authority, "Turkish Financial Reporting Standards" ("TFRS") and additional explanations and notes related to them and other decrees, notes and explanations related to accounting and financial reporting principles published by the Banking Regulation and Supervision Agency ("BRSA"). The format and content of the publicly announced unconsolidated financial statements and notes to these statements have been prepared in accordance with the "Communiqué on Publicly Announced Financial Statements, Explanations and Notes to These Financial Statements", published in Official Gazette No. 28337, dated 28 June 2012, and amendments to this Communiqué. The Bank maintains its books in Turkish Lira in accordance with the Banking Act, Turkish Commercial Code and Turkish Tax Legislation.

b. Accounting policies and valuation principles applied in the preparation of unconsolidated financial statements:

Accounting policies and valuation methods used in the preparation of financial statements have been applied as specified in the related communiqués, pronouncements and regulations of TAS and BRSA. The accounting policies adopted in the preparation of the current year-end financial statements are consistent with those adopted in the preparation of the financial statements as of December 31, 2012. TAS/TFRS changes (IAS 12 "Income Taxes: Recovery of Underlying Assets (Amendment)", IFRS 7 "Financial Instruments: Disclosures - Enhanced Derecognition Disclosure Requirements (Amendment)") do not have an effect on the Bank's accounting policies, financial position or performance. The accounting policies and valuation principles used in the preparation of unconsolidated financial statements are explained in Notes II and XXII below.

"Communiqué related to Changes in Communiqué on Financial Statements and Related Disclosures and Footnotes to be announced to Public by Banks" published in the Official Gazette dated January 23, 2011 and numbered 27824 has set out the financial statement formats for the banks which selected to early adopt TFRS 9 (In accordance with the Communiqué related to Changes in Communiqué on TFRS 9 "Financial Instruments" published in the Official Gazette dated December 30, 2012 numbered 28513, the effective date of the mentioned Communiqué has been changed as December 31, 2014 which was previously January 1, 2013) "Financial Instruments" before January 1, 2015. Since the Bank has not chosen to early adopt TFRS 9, the accompanying financial statements have been prepared in accordance with the financial statements in the appendix of "Communiqué on Financial Statements and Related Disclosures and Footnotes to be announced to Public by Banks" published in the Official Gazette dated June 28, 2012 and numbered 28337.

The amendments of TAS and TFRS, which have been issued as of the reporting date, are not expected to have a material impact on the accounting policies, financial condition and performance of the Bank, except for TFRS 9 "Financial Instruments". The Bank assesses the impact of TFRS 9 "Financial Instruments"

The unconsolidated financial statements are prepared in accordance with the historical cost basis except for the financial assets at fair value through profit and loss, financial assets-available for sale and immovables which are reflected at fair values.

Albaraka Türk Katılım Bankası Anonim Şirketi

**Notes related to unconsolidated financial statements
as at September 30, 2013
(Currency - Thousand Turkish Lira)**

I. Explanations on basis of presentation (continued):

The preparation of the unconsolidated financial statements according to TAS requires the Bank's management to make estimates and assumptions related to assets and liabilities in the balance sheet and contingent issues as of the balance sheet date. Such estimates and assumptions include the fair value calculations of the financial instruments, impairment of the financial assets and revaluation of immovables and reviewed periodically and when adjustments are considered necessary they are reflected in the financial statements. The assumptions and estimates used are explained in the related notes.

c. Restatement of the financial statements according to the current purchasing power of money:

The BRSA explained with its decision numbered 1623 and dated April 21, 2005 and its circular dated April 28, 2005 that the conditions for applying inflation accounting was no longer applicable and accordingly inflation accounting has not been applied in the accompanying financial statements starting from January 1, 2005.

II. Explanations on strategy of using financial instruments and foreign currency transactions:

The Bank creates its strategies on financial instruments considering its sources of financing. The main financing sources consist of current and profit sharing accounts. Other than current and profit sharing accounts, the Bank's most important funding sources are its equity and borrowings from foreign financial institutions. The Bank sustains its liquidity to cover matured liabilities by holding adequate level of cash and cash equivalents.

The Bank's transactions in foreign currencies are accounted in accordance with the TAS 21 "Accounting Standard on the Effect of Changes in Foreign Currency Rates", and converted with the exchange rate ruling at the transaction date into Turkish Lira. Foreign currency assets and liabilities have been translated into Turkish Lira at the rate of exchange rates ruling at the balance sheet date announced by the Bank. Gains or losses arising from foreign currency transactions and translation of foreign currency assets and liabilities are reflected in the income statement as foreign exchange gain or loss.

The portion of risk belonging to the profit sharing accounts for foreign currency non-performing loans which were funded from these accounts is evaluated at current foreign exchange rates. The portion of provisions provided for such loans belonging to profit sharing accounts are also evaluated at current foreign exchange rates.

Since the Bank provides full specific provision for the Bank's portion of risk of foreign currency non-performing loans and receivables funded from profit sharing accounts and for the risk of foreign currency non-performing loans and receivables funded by equity, such loans and receivables are translated to Turkish Lira at the current exchange rates instead of exchange rates prevailing at the date of transfer of the balances to non-performing portfolio. Such implementation does not have a positive or negative impact on trading income/loss of the Bank.

The foreign currency exchange differences resulting from the translation of debt securities issued and monetary financial assets into Turkish Lira are included in the income statement.

The balance sheet items of the foreign branch of the Bank included in the financial statements are translated into Turkish lira at the exchange rate ruling at the balance sheet date announced by the Bank. Income statement items are translated into Turkish lira by exchange rate ruling at the transaction date and all exchange differences arising from translation are accounted in other capital reserves under equity according to TAS 21.

Albaraka Türk Katılım Bankası Anonim Şirketi

**Notes related to unconsolidated financial statements
as at September 30, 2013
(Currency - Thousand Turkish Lira)**

II. Explanations on strategy of using financial instruments and foreign currency transactions (continued):

Precious metals (gold) accounted under assets and liabilities which do not have fixed maturity are translated into Turkish lira by using the buying rate of gold at the balance sheet date announced by the Bank and resulting evaluation differences are reflected as foreign exchange gain or loss.

There are no foreign currency differences capitalized by the Bank.

III. Explanations on forward, option contracts and derivative instruments:

The derivative financial instruments of the Bank consist of forward foreign currency agreements. The Bank records the spot foreign currency transactions in asset purchase and sale commitments .

The Bank's derivative transactions, even though they provide effective economic hedges under the Bank's risk management policy, do not qualify for hedge accounting under the specific rules in "Turkish Accounting Standard for Financial Instruments: Recognition and Measurement ("TAS 39")" and are therefore treated as "financial instruments at fair value through profit or loss" and the related gain or loss is associated with income statement.

The liabilities and receivables arising from the derivative transactions are recorded as off-balance sheet items at their contract values. The derivative transactions are initially recognized at fair value and presented in the financial statements at fair values recalculated in the subsequent reporting periods.

As of the balance sheet date, there are no embedded derivatives and no derivative instruments formed through separation from the host contract.

IV. Explanations on profit share income and expenses:

Profit share income

Profit share income is accounted in accordance with TAS 39 "Financial Instruments: Recognition and Measurement" by using internal rate of return method that equalizes the future cash flows of the financial instrument to the net present value. Profit share income is recognized on accrual basis.

Revenues regarding the profit and loss sharing investment projects are recognized when the significant risks and rewards of ownership of the goods are transferred to the buyer, the Bank retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold, the amount of revenue can be measured reliably, inflow of economic benefits associated with the transaction is probable and the costs incurred or to be incurred in respect of the transaction can be measured reliably.

In accordance with the Communiqué of "Principles and Procedures for the Determination of the Quality of Loans and Other Receivables and Reserves to be provided for these Loans", the profit share accruals of non-performing loans and other receivables are reversed and are recorded as profit share income when collected.

Profit share expense

The Bank records profit share expenses paid to profit sharing accounts on accrual basis. The profit share expense accrual calculated in accordance with the unit value method on profit sharing accounts has been included under the account 'Funds Collected' in the balance sheet.

Albaraka Türk Katılım Bankası Anonim Şirketi

**Notes related to unconsolidated financial statements
as at September 30, 2013
(Currency - Thousand Turkish Lira)**

V. Explanations on fees, commission income and expenses:

Other than commission income and fees and expenses for various banking services that are reflected as income /expense when collected/ paid, fees and commission income and expenses are reflected to income statement depending on the term of the related transaction.

In accordance with provisions of TAS, the portion of the commission and fees which are related to the reporting period and collected in advance for cash and non-cash loans granted is reflected to the income statement by using the internal rate of return method and straight line methods, respectively over the commission period of the related loan, respectively. Fees and commissions collected in advance which are related to the future periods are recorded under the account 'Deferred Revenues' and included in 'Miscellaneous Payables' in the balance sheet. The commission received from cash loans corresponding to the current period is presented in "Profit Share from Loans" in the income statement.

In the correspondence of BRSA dated June 8, 2012 and numbered B.02.1.BDK.0.13.00.0-91.11-12061, it has been stated that there is no objection to recording the commissions received from long term non-cash loans collected in quarterly periods or periods less than a quarter directly as income. Consequently, the Bank records the related non-cash loans commissions directly as income.

VI. Explanations on financial assets:

The Bank categorizes its financial assets as 'Financial Assets at Fair Value through Profit and Loss, 'Financial Assets Available for Sale', 'Loans and Receivables' or 'Financial Assets Held to Maturity'. Sale and purchase transactions of the financial assets mentioned above are recognized at the settlement dates. The appropriate classification of financial assets of the Bank is determined at the time of purchase by the Bank management taking into consideration the purpose of the investment.

Financial assets at fair value through profit or loss; This category has two sub categories: "Trading financial assets" and "Financial assets at fair value through profit and loss".

Trading financial assets are financial assets which are either acquired for generating profit from short-term fluctuations in prices or dealers' margin, or are financial assets included in a portfolio in which a pattern of short-term profit making exists.

Financial assets classified in this group are initially recognized at cost which reflects their fair values and are subsequently measured at fair value in the financial statements. All gains and losses arising from these valuations are reflected in the income statement.

The Bank has classified share certificates in its portfolio as trading financial assets and presented them at fair value in the accompanying financial statements.

As of September 30, 2013, the Bank has no financial assets classified as financial assets at fair value through profit or loss except for trading financial assets.

Financial assets available for sale:

Financial assets available for sale are initially recognized at cost; which reflects their fair values; including the transaction costs. After the initial recognition, available for sale securities are measured at fair value and the unrealized gains or losses resulting from the difference between the amortized cost and the fair value is recorded in "Marketable Securities Valuation Reserve" under equity. In case of a disposal of available for sale financial assets, value increases/decreases which have been recorded in the marketable securities valuation reserve under the equity is transferred to income statement. Financial assets classified as available for sale financial assets which do not have a quoted market price in an active market and whose fair values cannot be reliably measured are carried at cost, less impairment, if any.

Albaraka Türk Katılım Bankası Anonim Şirketi

**Notes related to unconsolidated financial statements
as at September 30, 2013
(Currency - Thousand Turkish Lira)**

VI. Explanations on financial assets (continued):

Loans and receivables:

Loans and receivables are non-derivative financial assets whose payments are fixed or can be determined, are not traded in an active market and are not classified as trading assets, financial assets at fair value through profit or loss and financial assets available for sale.

Loans and receivables are carried initially at cost including the transaction costs which reflects their fair value; and subsequently recognized at the amortized cost value using the internal rate of return method in accordance with TAS 39 "Financial Assets: Recognition and Measurement". Fees, transaction costs and other similar costs in connection with the collaterals of loans and receivables are paid by the customers and accordingly not included in expense items in the income statement.

Cash loans are accounted in related accounts as specified by the Communiqué "Uniform Chart of Accounts and Explanations".

Held to maturity financial assets:

Held to maturity financial assets are financial assets that are not classified under 'Loans and receivables' with fixed maturities and fixed or determinable payments where management has the intent and ability to hold until maturity. Held to maturity financial assets are initially recognized at cost including the transaction costs which reflects their fair value, and subsequently carried at amortized cost using the internal rate of return method. Profit share income from held to maturity financial assets is reflected in the income statement.

VII. Explanations on impairment of financial assets:

At each balance sheet date, the Bank evaluates the carrying amounts of its financial assets or a group of financial assets to determine whether there is an objective indication that those assets have suffered an impairment loss. If any such indication exists, the Bank determines the related amount of impairment.

A financial asset or a group of financial assets incurs impairment loss only if there is an objective evidence related to the occurrence of one or more than one event (loss events) subsequent to initial recognition of that asset or group of assets; and such loss event (or events) causes an impairment loss as a result of the effect on the reliable estimate of the expected future cash flows of the related financial asset and asset group. Any amount attributable to expected losses arising from any future events is not recognized under any circumstances.

If there is objective evidence that the loans granted might not be collected, general and specific provisions for such loans are expensed as 'Provision for Loan Losses and Other Receivables' in accordance with the Communiqué of "Principles and Procedures for the Determination of the Quality of Loans and Other Receivables and Reserves to be provided for these Loans". Subsequent recoveries of amounts previously written off or provisions provided in prior periods are included in "Other Operating Income" in the income statement. The profit sharing accounts' portion of general and specific provisions for loans and other receivables originated from profit sharing accounts is reflected to the profit sharing accounts.

If there is objective evidence indicating that the value of financial assets held to maturity is impaired, the amount of the loss is measured as the difference between the present value which is calculated by discounting the projected cash flows in the future with the original profit share rate and the net book value; provision is provided for impairment and the provision is associated with the expense accounts.

Albaraka Türk Katılım Bankası Anonim Şirketi

**Notes related to unconsolidated financial statements
as at September 30, 2013
(Currency - Thousand Turkish Lira)**

VII. Explanations on impairment of financial assets (continued):

If there is objective evidence indicating that the fair value of a financial asset available for sale, for which decreases in the fair value has been accounted in the equity, has been impaired then the total loss which was accounted directly under the equity is deducted from equity and transferred to the income statement.

If there is objective evidence indicating that an unquoted equity instrument which is not carried at fair value because its fair value cannot be reliably measured is impaired, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of the estimated future cash flows discounted at the current market rate of return for a similar financial asset. Such impairment losses cannot be reversed.

VIII. Explanations on offsetting of financial instruments:

Financial instruments are offset when the Bank has a legally enforceable right to net off the recognized amounts, and there is an intention to settle on net basis or realize the asset and settle the liability simultaneously.

There are no such offset of financial assets and liabilities.

IX. Explanations on sale and repurchase agreements and lending of securities:

Securities subject to repurchase agreement are classified as "at fair value through profit or loss", "available-for-sale" and "held-to-maturity" according to the investment purposes of the Bank and measured according to the portfolio to which they belong. Funds obtained from the related agreements are accounted under "Borrowings from Money Markets" in liabilities and the difference between the sale and repurchase price is accrued over the life of the agreements using the internal rate of return method. Profit share expense on such transactions is recorded under "Profit Share Expense on Money Market Borrowings" in the income statement.

The Bank has no securities lending transactions.

X. Explanations on assets held for sale and discontinued operations and liabilities related to these assets:

Assets held for sale (or disposal group) are measured at the lower of the carrying amount of assets and fair value less any cost to be incurred for disposal. In order to classify an asset as held for sale, the possibility of sale should be highly probable and the asset (or disposal group) should be available for immediate sale in its present condition. Highly saleable condition requires a plan designed by an appropriate level of management regarding the sale of the asset to be disposed of together with an active program for the determination of buyers as well as for the completion of the plan. Also the asset shall be actively marketed in conformity with its fair value. In addition, the sale is expected to be recognized as a completed sale within one year after the classification date and the necessary transactions and procedures to complete the plan should demonstrate the fact that there is remote possibility of making any significant changes in the plan or cancellation of the plan.

The Bank has assets that are possessed due to receivables and debtors' obligations to the Bank and classified as assets held for sale. In the case that the Bank has not disposed of such assets within a year of receipt or failed to produce a solid plan for sale of the assets, they are reclassified as fixed assets and are amortized.

A discontinued operation is a part of the Bank's business which has been disposed of or classified as held-for-sale. The operating results of the discontinued operations are disclosed separately in the income statement. The Bank has no discontinued operations.

Albaraka Türk Katılım Bankası Anonim Şirketi

**Notes related to unconsolidated financial statements
as at September 30, 2013
(Currency - Thousand Turkish Lira)**

XI. Explanations on goodwill and other intangible assets:

Goodwill and other intangible assets are recorded at cost in accordance with TAS 38 "Intangible Assets". As of the balance sheet date, there is no goodwill in the financial statements of the Bank. The Bank's intangible assets consist of softwares and intangible rights.

The costs of the intangible assets purchased before December 31, 2004 have been restated from the purchasing dates to December 31, 2004, the date the hyperinflationary period is considered to be ended. Intangible assets purchased after this date have been recorded at their historical costs. Intangible assets are amortised by the Bank over their estimated economic useful lives in equal amounts on a straight-line basis. Useful lives of the Bank's software have been determined as 3 to 4 years and other intangible assets' useful lives have been determined as 15 years.

If there is objective evidence of impairment, the asset's recoverable amount is estimated in accordance with the TAS 36 "Impairment of Assets" and if the recoverable amount is less than the carrying value of the related asset, a provision for impairment loss is provided.

XII. Explanations on tangible assets:

The cost of the tangible assets purchased before December 31, 2004 have been restated by inflationary index from the purchasing dates to December 31, 2004, the date the hyperinflationary period is considered to be ended. The tangible assets purchased after this date are recorded at their historical costs. Tangible assets are recorded at cost less accumulated depreciation and provision for impairment, if any in compliance with the TAS 16 "Tangible Assets" in the financial statements.

As of March 31, 2009, the Bank has made a change in accounting policy and adopted revaluation model for immovables in accordance TAS 16 and reflected the results of appraisal reports prepared by an independent real estate appraiser firm to the financial statements. As of December 31, 2012, the Bank has revalued its immovables and reflected the results of appraisal reports prepared by an independent real estate appraiser firm using comparison of similar items method to the financial statements. The revaluation fund mentioned cannot be distributed as dividend to shareholders. Current period depreciation charge relating to the revaluation has been transferred to retained earnings from revaluation fund reserve in accordance with TAS 16.

There are no restrictions such as pledges, mortgages or any other restriction on tangible assets.

There are no changes in the accounting estimates which are expected to have an impact in the current or subsequent periods.

Depreciation is calculated on a straight-line basis. Depreciation rates used are determined by considering the estimated economic useful life of the assets. The annual rates used are as follows:

	%
Buildings	2
Motor vehicles	20 – 25
Furniture, fixture and office equipment	4 – 33
Safe-deposit boxes	2 – 20
Operational lease improvement costs (Leasehold improvements)	Leasing period – 5 years

The depreciation of an asset held for a period less than a full financial year is calculated as a proportion of the full year depreciation charge from the date of acquisition to the financial year end. Leasehold improvements are depreciated over their estimated economic useful lives in equal amounts. The estimated economic useful lives cannot exceed the leasing period. In cases where the leasing period is not certain, the useful life is determined as 5 years. After January 1, 2010 in cases where leasing period is more than 5 years, the useful life is determined as 5 years.

Albaraka Türk Katılım Bankası Anonim Şirketi

**Notes related to unconsolidated financial statements
as at September 30, 2013
(Currency - Thousand Turkish Lira)**

XII. Explanations on tangible assets (continued):

If there is an indication for impairment, the Bank estimates the recoverable amount of the tangible asset in accordance with TAS 36 'Impairment of Assets' and if the recoverable amount is less than its carrying value, provides for an impairment loss.

Gain or loss resulting from disposals of the tangible assets is calculated as the difference between the net proceeds from the sale and the net book value of the related asset.

The repair and maintenance costs of the tangible assets are capitalized, if the expenditure increases the economic life of the asset. Other repair and maintenance costs are expensed.

XIII. Explanations on leasing transactions:

Transactions as a lessee

Leases where the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee are classified as finance leases and other leases are classified as operational leases.

Assets acquired under finance lease contracts are recorded both as an asset and a liability at the beginning date of the lease. The basis for the determination of the balances recorded in the balance sheet as asset and liability is the lower of fair value of the leased asset at the inception of the lease and the present value of the lease payments. Finance charges arising from lease contracts are expensed in the related periods taking into consideration the internal rate of return over the period of the lease.

Assets acquired under finance lease contracts are depreciated over their useful lives and impairment provision is provided in case a decrease in recoverable amount has been determined.

The payments made under operational leases are charged to income statement on a straight line basis over the period of the lease.

Transactions as a lessor

The Bank, as a participation bank, acts as a lessor in finance leasing transactions. The Bank presents finance leased assets as a receivable equal to the net investment in the lease. Finance income is based on a pattern reflecting a constant periodic rate of return on the net investment outstanding.

XIV. Explanations on provisions and contingent liabilities:

Provisions and contingent liabilities, excluding the general and specific provisions for impairment on loans and other receivables, are accounted in accordance with TAS 37: "Provisions, Contingent Liabilities and Contingent Assets".

Provisions are recognized if; as of the balance sheet date there is a present legal or constructive obligation as a result of past events, it is probable that an outflow resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the amount of the obligation can be made.

Provision is booked for contingent liabilities originated as a result of past events in the period they arise if it is probable that the liability will be settled and a reliable estimate for the liability amount can be made.

Albaraka Türk Katılım Bankası Anonim Şirketi

**Notes related to unconsolidated financial statements
as at September 30, 2013
(Currency - Thousand Turkish Lira)**

XV. Explanations on liabilities regarding employee benefits:

i) *Defined benefit plans:*

In accordance with existing social legislation, the Bank is required to make severance pay to each employee who has completed over one year of service with the Bank and whose employment is terminated due to retirement or for reasons other than resignation or misconduct.

The retirement pay provision recognized in the financial statements, is calculated in accordance with TAS 19 "Employee Benefits" by using the "projection method" and based upon factors derived using the Bank's experience with respect to completion of service period and eligibility to receive retirement pay and which is discounted by using the current market yield rate of government bonds at the balance sheet date.

The Bank's employees are not members of any pension fund, foundations, union or other similar entities.

ii) *Defined contribution plans:*

The Bank pays defined contribution plans to publicly administered Social Security Funds for its employees. The Bank has no further payment obligations other than this contribution share. The contributions are recognized as personnel expenses when they accrue.

iii) *Short term benefits to employees:*

In accordance with TAS 19, vacation pay liabilities are classified as "Short Term Benefits to Employees" and accrued in the period they are earned and are not discounted.

XVI. Explanations on taxation:

Current tax:

The Bank is subject to tax laws and legislation effective in Turkey.

In accordance with the Corporate Tax Law no.5520 published in the Official Gazette no.26205 dated June 21, 2006, the corporation tax rate effective from January 1, 2006 is 20%.

Dividends paid to the resident institutions are not subject to withholding tax. Withholding tax rate on the dividend payments other than these is 15%. Appropriation of the retained earnings to capital is not considered as profit distribution and accordingly is not subject to withholding tax.

The prepaid taxes are calculated based on quarterly profits of the Bank using the corporate rate of 20% which must be announced by the 14th day and paid by the 17th day of the second month following the taxed period. The prepaid taxes can be deducted from the annual corporate tax calculated on the annual corporate income. The remaining prepaid tax, if any after deduction, can be refunded in cash or deducted from other financial liabilities to the government.

Albaraka Türk Katılım Bankası Anonim Şirketi

**Notes related to unconsolidated financial statements
as at September 30, 2013
(Currency - Thousand Turkish Lira)**

XVI. Explanations on taxation (continued):

75% of the profits generated from the sale of properties and share certificates of which the Bank held possession for two years or more, are tax exempt if added to the capital or accounted under shareholders' equity as a special fund for 5 years according to the Corporate Tax Law.

Income generated by the transfer of properties, share certificates of subsidiaries, founders' shares, preferred shares and preemptive rights owned by corporations under legal follow-up together with their guarantors and mortgagers, which are transferred to banks due to their debts and used for winding up the debts is exempt from corporation tax. Additionally, 75% of the profit generated by sales of above mentioned instruments is also exempt from corporation tax.

In accordance with the tax legislation, tax losses can be carried forward to offset against future taxable income for up to five years. Tax losses cannot be carried back to offset profits from previous periods.

In accordance with the last paragraph of the first article of the law dated February 11, 1986 and numbered 3259 "Law related to granting tax exemption to Islamic Development Bank" dividends paid to Islamic Development Bank is exempt from corporate tax. Therefore, dividend distributed to Islamic Development Bank as a shareholder of the Bank is exempt from corporate tax and income tax withholding.

In Turkey, there is no procedure for a final and definite agreement on tax assessments. Companies file their tax returns to their tax offices by the end of 25th of the fourth month following the close of the accounting period to which they relate. Tax returns are open for five years from the beginning of the year that follows the date of filing during which time the tax authorities have the right to audit tax returns, and the related accounting records on which they are based, and may issue reassessments based on their findings.

Deferred tax:

The Bank calculates and accounts for deferred income taxes for temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in these financial statements in accordance with TAS 12 "Turkish Accounting Standard for Income Taxes". Deferred tax asset is calculated on all temporary differences other than general loan loss provisions to the extent that is probable that taxable profit will be available and deferred tax liability is calculated for all temporary differences. Deferred tax asset and liabilities are shown in the accompanying financial statements on a net basis.

Deferred tax liabilities are calculated for all of the temporary differences whereas deferred tax assets resulting from temporary differences are recognized to the extent that it is probable that future taxable profit will be available against which the deferred tax assets can be utilized.

Transfer pricing:

Transfer pricing is regulated through article 13 of Corporate Tax Law titled "Disguised Profit Distribution by way of Transfer Pricing". Detailed information for the practice regarding the subject is found in the "General Communiqué on Disguised Profit Distribution by way of Transfer Pricing".

According to the aforementioned regulation, in the case of making purchase or sales of goods or services with related persons/corporations at a price that is determined against "arm's length principle", the gain is considered to be distributed implicitly through transfer pricing and such distribution of gains is not deductible in calculation of corporate tax.

XVII. Additional explanations on borrowings:

The Bank records borrowings in accordance with TAS 39 'Financial Instruments: Recognition and Measurement'. Borrowings, except for funds collected, are recognized at amortized cost using the effective internal rate of return method in the following periods after the initial recognition. Derivative instruments are accounted with their fair values.

There are no debt securities issued by the Bank.

The Bank has not issued convertible bonds.

XVIII. Explanations on issued share certificates:

None.

XIX. Explanations on acceptances and availed drafts:

Acceptances and availed drafts are realized simultaneously with the payment dates of the customers and they are presented as commitments in the off-balance sheet accounts.

XX. Explanations on government grants:

As of the balance sheet date, there are no government grants received by the Bank.

XXI. Explanations on segment reporting:

Business segment is a component of the Bank that engages in business activities from which the Bank may earn revenues and incur expenses, whose operating results are regularly reviewed by the Bank's chief operating decision makers to make decisions about resources to be allocated to the segment and assess its performance, and for which discrete financial available.

Segment reporting is disclosed in Section Four, Note XIII.

XXII. Explanations on other matters:

None.

XXIII. Additional paragraph for convenience translation:

The effects of differences between accounting principles and standards set out by regulations in conformity with Article 37 of the Banking Act No: 5411 and the accounting principles generally accepted in countries in which the accompanying financial statements are to be distributed and International Financial Reporting Standards (IFRS) have not been quantified in the accompanying financial statements. Accordingly, the accompanying financial statements are not intended to present the financial position, results of operations and changes in financial position and cash flows in accordance with the accounting principles generally accepted in such countries and IFRS.

Section four

Information on financial structure and risk management

I. Explanations on capital adequacy standard ratio:

Capital adequacy ratio calculations are made in accordance with "Regulation on Measurement and Assessment of Capital Adequacy Ratios of Banks" (Regulation) published in the Official Gazette no.28337 dated June 28, 2012 starting from July 1, 2012. As of September 30, 2013, the Bank's unconsolidated capital adequacy ratio calculated in accordance with the "Regulation on Measurement and Assessment of Capital Adequacy Ratios of Banks" is 15,08% (Prior Period- 13,03%).

a) Risk measurement methods used in the calculation of capital adequacy standard ratio:

Capital adequacy ratio is calculated within the scope of the "Regulation on Measurement and Assessment of Capital Adequacy Ratios of Banks", "Regulation on Credit Risk Mitigation Techniques" published in the Official Gazette no.28337 dated June 28, 2012 and the "Regulation on Equities of Banks" published in the Official Gazette no.26333 dated November 1, 2006.

In the calculation of capital adequacy ratio the Bank applies standard method for market risk, basic indicator method for operational risk and standard method for credit risk.

In the calculation of capital adequacy ratio, the data composed from accounting records prepared in compliance with the current legislation are used. Such accounting data is included in the calculation of credit and market risks subsequent to their designation as "trading book" and "banking book" according to the Regulation.

The items classified as trading book and the items deducted from the equity are not included in the calculation of credit risk. In the calculation of risk weighted assets, the assets subject to amortisation or impairment, are taken into account on a net basis after being reduced by the related amortisations and provisions.

In the calculation of the value at credit risk for the non-cash loans and commitments and the receivables from counterparties in such transactions are weighted after netting with specific provisions that are classified under liabilities and calculated based on the "Regulation on Identification of and Provision against Non-Performing Loans and Other Receivables". The net amounts are then multiplied by the rates stated in the Article 5 of the Regulation, reduced as per the "Regulation on Credit Risk Mitigation Techniques" and then included in the relevant exposure category defined in the article 6 of the Regulation and weighted as per Appendix-1 of the Regulation.

e) Approaches for assessment of adequacy of internal capital requirements for current and future activities:

Not prepared in compliance with the Article 25 of the Communiqué "Financial Statements and Related Disclosures and Footnotes to be Announced to Public by Banks".

Albaraka Türk Katılım Bankası Anonim Şirketi

Notes related to unconsolidated financial statements

As at September 30, 2013

(Currency - Thousand Turkish Lira)

II. Explanations on credit risk:

Not prepared in compliance with the Article 25 of the Communiqué "Financial Statements and Related Disclosures and Footnotes to be Announced to Public by Banks".

III. Explanations on market risk:

The Bank measures its market risk exposures within the framework of "Regulation on Measurement and Assessment of Capital Adequacy of Banks" published in Official Gazette numbered 28337 dated June 28, 2012 by using standardized approach and allocates statutory capital accordingly. On the other hand, market risk is also calculated for testing purposes using internal model methods (VaR) and the results are validated by back test analysis. The VaR is calculated daily by using Variance, Covariance, EWMA, Monte Carlo and historical simulation methods and the results are reported to senior management.

The Board of Directors set the risk limits by taking into account the main risk factors and these limits are periodically revised in accordance with the market conditions and the Bank's strategies. Furthermore, the Board of Directors ensure that, the necessary measures are to be taken by risk management department and top level management in respect of defining, measuring, prioritizing, monitoring and managing the risks exposed by the Bank.

The riskiness of on and off balance sheet positions which will occur due to the market volatility is measured regularly. The information related to market risk taken into consideration in calculation of legal capital is stated below.

a) Information related to market risk:

	Amount
(I) Capital requirement to be employed for general market risk - standard method	453
(II) Capital requirement to be employed for specific risk - standard method	453
Capital requirement against specific risks of securitisation positions- standard method	-
(III) Capital requirement to be employed for currency risk - standard method	5.631
(IV) Capital requirement to be employed for commodity risk - standard method	-
(V) Capital requirement to be employed for swap risk - standard method	-
(VI) Capital requirement to be employed for market risk of options - standard method	-
(VII) Capital requirement against counterparty credit risks - standard method	34
(VIII) Capital requirement to be employed for market risks of banks using risk measurement model	-
(IX) Total capital requirement to be employed for market risk (I+II+III+IV+V+VI+VII)	6.571
(X) Amount subject to market risk (12,5 X VIII) or (12,5 x IX)	82.138

b) Average Market Risk Table Concerning Market Risk Calculated as of Month Ends During the Period:

Not prepared in compliance with the Article 25 of the Communiqué "Financial Statements and Related Disclosures and Footnotes to be Announced to Public by Banks".

Albaraka Türk Katılım Bankası Anonim Şirketi

Notes related to unconsolidated financial statements

As at September 30, 2013

(Currency - Thousand Turkish Lira)

IV. Explanations on operational risk:

Not prepared in compliance with the Article 25 of the Communiqué "Financial Statements and Related Disclosures and Footnotes to be Announced to Public by Banks".

V. Explanations on currency risk:

Foreign currency risk arises from the Bank's possible exposure to the changes in foreign currencies.

- a) The Bank is exposed to currency risks as a market risk and tries to balance the currency risks by avoiding to keep any long or short positions. The currency risk of the Bank is monitored on a daily basis. Net foreign currency position / shareholders' equity ratio is also controlled on a daily basis. All foreign currency assets, liabilities and foreign currency forward transactions are taken into consideration while capital requirement to be employed for foreign currency risk is calculated. Standard Method used in legal reporting and amount subject to risk is calculated on a monthly basis.
- b) The Bank does not have any derivative financial instruments held for hedging purposes.
- c) As a result of the uncertainty and volatility in the markets, foreign currency position is kept at a balance, and accordingly, no currency risk is anticipated. The Bank takes necessary measures to keep the currency risk at a minimum level.
- ç) Foreign exchange buying rates of the last five working days before the balance sheet date as publicly announced by the Bank are as follows:

Full TL	USD	EUR
As of September 30, 2013 - Balance sheet evaluation rate	2,014	2,728
As of September 27, 2013	2,010	2,722
As of September 26, 2013	2,013	2,714
As of September 25, 2013	1,999	2,700
As of September 24, 2013	1,994	2,690
As of September 23, 2013	1,980	2,672

- d) The simple arithmetical average of the major foreign exchange buying rates of the Bank for the thirty days before the balance sheet date is full TL 2,004 for 1 USD (December 2012 – full TL 1,778), full TL 2,677 for 1 EURO (December 2012 – full TL 2,332).

Foreign currency sensitivity:

The Bank is mainly exposed to EUR and USD currency risks.

The following table details the Bank's sensitivity to a 10% change in the USD and EURO rates. A negative amount indicates a decrease effect in profit/loss or equity of the 10% value decrease/increase of USD and EUR against TL.

% change in foreign currency rate		Effect on profit / loss		Effect on equity	
		September 30,2013	December 31,2012	September 30,2013	December 31,2012
USD	10% increase	13.052	21.855	145	(28)
USD	10% decrease	(13.052)	(21.855)	(145)	28
EURO	10% increase	(4.930)	4.906	-	-
EURO	10% decrease	4.930	(4.906)	-	-

VII. Explanations on liquidity risk:

In the banking sector, liquidity risk mainly arises from average maturity of sources being shorter than average maturity of utilizations. The Bank acts in a conservative manner in liquidity management and keeps necessary reserves to meet the liquidity requirements. The Bank utilizes some of its sources in short term foreign investments; receivables from loans are generally collected in monthly installments.

The Bank collects funds through profit/loss sharing accounts for which the profit share rate is not predetermined and repayment of principal is not guaranteed and share of profit/loss on projects funded from these accounts are allocated to such profit/loss sharing accounts. Accordingly, the Bank's assets and liabilities and profit share ratios are compatible.

The Bank covers TL and Foreign Currency (FC) liquidity needs mostly by the funds collected and also utilizes Syndicated Murabaha Loans and wakala borrowings from abroad. Moreover, the Bank takes care to keep the assets in short term liquid assets and prolong average maturity of the liabilities.

The Board of Directors of the Bank monitors both the BRSA liquidity ratios and certain other indicators defined in the liquidity contingency plan on a daily basis. The liquidity sources which will be utilized in case of a potential liquidity shortage are defined in the contingency plans.

As per the BRSA Communiqué "Measurement and Assessment of the Adequacy of Banks' Liquidity", starting from June 1, 2007 the weekly and monthly liquidity ratios for foreign currency assets/liabilities and total assets/liabilities should be minimum 80% and 100%, respectively. Liquidity ratios for the periods ending September 30, 2013 and December 31, 2012 are as follows:

<i>September 30, 2013</i>	First Maturity Bracket (Weekly)		Second Maturity Bracket (Monthly)	
	FC	FC + TL	FC	FC + TL
Average (%)	167,15	193,83	131,34	140,25
Maximum (%)	261,07	286,26	156,72	201,10
Minimum (%)	105,34	105,74	107,43	106,87

<i>December 31, 2012</i>	First Maturity Bracket (Weekly)		Second Maturity Bracket (Monthly)	
	FC	FC + TL	FC	FC + TL
Average (%)	239,38	242,35	167,72	180,48
Maximum (%)	345,05	295,33	238,14	213,75
Minimum (%)	117,02	194,66	104,38	155,78

VIII. Securitisation Positions:

None.

IX. Credit risk mitigation techniques:

On and off balance sheet offsetting agreements are not utilized.

The risk mitigators that are used in credit process in compliance with Communiqué "The Risk Mitigation Techniques" which is published at June 28, 2012 are stated below:

- a) Financial collaterals (Government securities, cash, deposit or participation fund pledge, gold, stock pledge)
- b) Guarantees

The credibility of guarantors is monitored and evaluated within the framework of credit revision periods.

Collaterals obtained by the Bank are reviewed and appraised in accordance with related legislation as long as the credit relationship is outstanding.

The appraisal of the mortgages for loans exceeding TL 3.000 or 5% of Bank's shareholders' equity are being made by the firms authorized by BRSA or Capital Market Board.

The Bank monitors other banks' guarantees that are evaluated as risk mitigators within the framework of BRSA regulations on a regular basis and reviews the credibility of banks periodically.

The volatility in real estate market is monitored closely by the Bank and the market fluctuations are considered in credit activities.

X. Explanations on Risk Management Objectives and Policies:

The aim of the Bank's Risk management system is basically to ensure identification, measurement, monitoring and controlling of risks exposed, through establishment of policies, implementation procedure and limits for monitoring, controlling and in case of need changing the risk/return structure of future cash flows, and accordingly nature and level of operations.

Basically the Bank is exposed to market, liquidity, credit and strategic risk , reputation risk, and operational risk and determines risk policies, procedures to be implemented, and risk limits approved by Board of Directors for risks that can be quantified. The related limits are monitored, reported and maintained within the set limits by the units under Internal Systems and the related departments in the Bank. Risk Management Unit, organized within the frame of Risk Management regulations, undertakes activities for measuring, monitoring, controlling and reporting risks.

Market Risk

Market Risk is the probability of loss that the bank may be exposed to due to the bank's general market risk, foreign exchange risk, specific risk, commodity risk, settlement risk and counterparty credit risk in trading book.

Exchange rate risk or foreign currency risk which is one of the factors that constitutes market risk, defines the probability of loss due to the effects of possible changes in currency to all the Bank's foreign currency assets and liabilities. Security position risk is the negations in the Bank's revenues and thus shareholders' equity, cash flows, asset quality and finally in meeting the commitments arising from negative movements in security prices included in the Bank's trading accounts.

Within the framework of market risk, the Bank calculates foreign currency position risk, general market risk for security position risk and specific risks via standard method and reports to the legal authority. The Bank also measures the foreign currency position risk by various internal methods for testing purposes. The variations between daily predicted value at risk and actual values and back testing practices are used to determine the accuracy and performance of these tests. The potential durability of portfolio against unpredictable risks that can be exposed is measured by stress tests including stress scenarios.

The Bank continuously monitors the compliance of market risk with the limits determined by legal regulations. The Bank's strategy for the currency risk is keeping it at a balance and not having any short or long position.

X. Explanations on Risk Management Objectives and Policies (continued):

Liquidity Risk

The liquidity risk is defined as inability to keep sufficient level of cash to meet cash outflow needs arising from participation accounts that are due and other obligations as a result of cash flow imbalances.

Maturity mismatch, impairment of the asset quality, unpredictable source outflows, decrease in profit and economic crisis situations are the factors that might cause the occurrence of the liquidity risk.

For liquidity risk, cash flows are monitored daily and preventive and remedial precautions are taken to meet obligations on time and in the required manner.

Regarding liquidity risk, in order to meet liquidity needs arising from unpredictable movements in the markets, the Bank prefers to implement the policy of maintaining quality liquid assets in adequate proportion by considering previous liquidity experiences and minimum liquidity adequacy ratios set by legal regulations.

Credit Risk

Credit risk represents the Bank's possibility of losses due to loan customers not fulfilling the terms of their agreements partially or in full. At the same time, this risk includes market value loss arising from the deterioration of the financial position of the counterparty. Within the scope of the definition of the credit risk used, on balance and off balance sheet portfolios are included.

In the Bank, credit allocation authority belongs to the Board of Directors. The Board of Directors takes necessary measures by establishing policies related to allocation and approval of loans, credit risk management policies and other administrative issues; by ensuring implementation and monitoring of these policies. The Board of Directors transferred its credit allocation authority to the Credit Committee and Head-office in line with the policies and procedures defined by the legal regulations. Head-office Credit Committee exercises the credit allocation authority through units of the Bank/ regional offices and branches. The Bank grants credits on the basis of limits determined for each individual customer and group of customers separately and core banking system prevents customers' credit risks being in excess of their limits.

The Bank pays attention in order not to result in sectoral concentration that might affect credit portfolio in a negative way. Maximum effort is being made to prevent risks from concentrating on few customers. Credit risk is continuously monitored and reported by units under internal systems and other risk management divisions. By this way, harmonization of credit risk with credit risk management policy and application standards is maintained.

X. Explanations on Risk Management Objectives and Policies (continued):

Operational Risk

Operational risk is defined as the possibility of loss occurring due to insufficient or unsuccessful internal processes, persons and systems or external incidents. Although legal risk and compliance risk are included in this risk group, reputation risk and strategy risk (arising from misjudgements at wrong times) are excluded.

Operational risk is a risk type that exists in all functions of the Bank. It might arise from employee mistakes, an error caused by the system, transactions made based on inadequate or incorrect legal information, information flow failure among levels under Bank organization structure, ambiguity in limits of authorization, structural and/or operational changes, natural disasters, terror and fraud.

Operational risk is categorized under five groups according to its sources: employee risk, technological risks, organization risk, legal-compliance risk and external risks. The Bank takes necessary measures in order to keep operational risk at an acceptable level.

Other risks

Other risks the Bank is exposed to are strategic risk, reputation risk, counterparty risk, compliance risk, residual risk, country risk, and concentration risk. The Bank's risk management system, in order to prevent and/or control strategic risks, is prepared against changes in economic, political and socio-political conditions, laws, legislation and similar regulations that could affect the Bank's operations, status and strategies significantly and observes these issues in contingency and business continuity plan implementations.

Reputation risk is defined as events and situations arising from all services, functions and relations of the Bank that would cause to lose confidence in the Bank and damage its image.

The Bank's risk management system in order to prevent and/or control reputation risk, switches on a proactive communication mechanism by giving priority to its customers whenever it is determined that the Bank's reputation or image is damaged. The system, ready for the worst case scenarios in advance, takes into account the level of the relationship between operational risks and reputation risk, its level and its effect.

Residual risk is the risk that arises in case that the risk mitigation techniques are not as effective as expected. Senior management procures the implementation of residual risk management policy and strategy that is approved by Board of Directors. It establishes necessary communication channels in order to publish relevant policy and strategies to relevant Bank personnel and inform them about their responsibilities.

Counterparty credit risk is the probability that one of the parties of a transaction where both sides are imposed with liability becomes default on his liability before the last payment in the cash flow of the transaction.

Compliance risk means those risks which are related to sanctions, financial losses and/ or loss of reputation that the Bank may suffer in the event that the Bank's operations and the attitudes and acts of the Bank's staff members are not in conformity and compliance with the current legislation, regulations and standards. The Head of Legislation and Compliance Unit, who shall be appointed by the Board of Directors, shall be accountable for the purposes of planning, arranging, conducting, managing, assessing, monitoring and coordinating the corporate compliance activities.

(Currency - Thousand Turkish Lira)

X. Explanations on Risk Management Objectives and Policies (continued):

Country risk is the probability of loss that the Bank may be exposed to in case borrowers in one country fail or shirk to fulfill their foreign obligations due to uncertainties in economic, social and political conditions. The Bank constitutes its commercial connections with foreign fiscal institutions and countries, as a result of feasibility studies made for country's economic conditions within legal restrictions and through consideration of market conditions and customer satisfaction.

Concentration risk is the probability of experiencing large scale losses due to one single risk amount or risk amounts in particular risk types that may threaten the body of the Bank and the capability of operating its principal activities. Policies in regards to concentration risk are classified as Sectoral concentration, Concentration to be created on the Basis of Collateral, Concentration on the Basis of Market Risk, Concentration on the Basis of Types of Losses, Concentration Arising from Participation Fund and Other Financing Providers.

Section five

Explanations and notes on the unconsolidated financial statements

I. Explanations and notes related to assets:

1. a) Cash and balances with the Central Bank of Republic of Turkey (CBRT):

	Current Period		Prior Period	
	TL	FC	TL	FC
Cash/foreign currency	52.379	56.990	56.903	52.220
CBRT	98.114	1.780.705	65.840	1.060.523
Other (*)	-	6.384	-	65.157
Total	150.493	1.844.079	122.743	1.177.900

(*) Includes precious metals amounting to TL 6.384 as of September 30, 2013 (December 31, 2012: TL 65.157).

b) Information related to CBRT:

	Current Period		Prior Period	
	TL	FC	TL	FC
Unrestricted demand deposit	98.114	172.303	65.840	150.069
Unrestricted time deposit	-	-	-	-
Restricted time deposit (*)	-	1.608.402	-	910.454
Total	98.114	1.780.705	65.840	1.060.523

In accordance with the "Communiqué Regarding the Reserve Requirements no. 2005/1", banks operating in Turkey are required to maintain reserves in CBRT for TL and foreign currency liabilities. According to the Communiqué Regarding the Reserve Requirements, reserve requirements can be maintained in TL, USD and/or EURO and standard gold.

The reserve rates for TL liabilities vary between 5% and 11,5% for TL deposits and other liabilities according to their maturities as of September 30,2013 (December 31,2012: for all TL liabilities between 5% and 11%). The reserve rates for foreign currency liabilities vary between 6% and 13% for deposit and other foreign currency liabilities according to their maturities as of September 30,2013 (December 31,2012: for all foreign currency liabilities between 6% and 11,5%).

(*) As of September 30, 2013, the reserve requirement held in standard gold is TL 311.317 (December 31, 2012: TL 136.030).

7. Information on provisions (continued):

d) Information on provisions for employee rights:

Provisions for employee benefits consist of reserve for employee termination benefits amounting to TL 17.331 (December 31, 2012: TL 14.850) and vacation pay liability amounting to TL 5.364 (December 31, 2012: TL 4.395), totaling to TL 22.695 (December 31, 2012: TL 19.245). The Bank has calculated the reserve for employee termination benefits using actuarial valuation methods as indicated in TAS 19. Accordingly, following actuarial assumptions were used in the calculation of the total liability.

	Current Period	Prior Period
Discount rate (%)	8,6	8,6
Estimated increase rate of salary ceiling (%)	5,0	5,0
Rate used in relation to possibility of retirement (*) (%)	71,6	71,8

(*) The rate has been calculated depending on the years of service of the employees; the rate presented in the table represents the average of such rates.

Movement of the reserve for employment termination benefits in the balance sheet is as follows:

	Current Period	Prior Period
Prior period ending balance	14.850	10.602
Provisions made in the period	4.991	9.204
Actuarial gain/(loss)	(967)	(2.899)
Paid during the period	(1.543)	(2.057)
Balance at the end of the period	17.331	14.850
