financial statements originally issued in Turkish – see section three Note I.b)

AUDITOR'S REVIEW REPORT ON INTERIM FINANCIAL INFORMATION

(Convenience translation of the independent auditor's review report originally issued in Turkish, See Note I.b of Section Three)

To the General Assembly of Albaraka Türk Katılım Bankası Anonim Şirketi;

Introduction

We have reviewed the unconsolidated balance sheet of Albaraka Türk Katılım Bankası Anonim Şirketi ("the Bank") at 31 March 2026 and the related unconsolidated statement of profit or loss, unconsolidated statement of profit or loss and other comprehensive income, unconsolidated statement of changes in shareholders' equity, unconsolidated statement of cash flows and a summary of significant accounting policies and other explanatory notes to the unconsolidated financial statements for the three-month period then ended. The Bank management is responsible for the preparation and fair presentation of interim financial information in accordance with the Banking Regulation and Supervision Agency ("BRSA") Accounting and Financial Reporting Legislation which includes "Regulation on Accounting Applications for Banks and Safeguarding of Documents" published in the Official Gazette no.26333 dated 1 November 2006, and other regulations on accounting records of Banks published by Banking Regulation and Supervision Agency and circulars and interpretations published by BRSA and Turkish Accounting Standard 34 "Interim Financial Reporting" for those matters not regulated by the aforementioned regulations. Our responsibility is to express a conclusion on these interim financial information based on our review.

Scope of Review

We conducted our review in accordance with the Standard on Review Engagements (SRE) 2410, "Limited Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial reporting process, and applying analytical and other review procedures. A review of interim financial information is substantially less in scope than an independent audit performed in accordance with the Independent Auditing Standards and the objective of which is to express an opinion on the financial statements. Consequently, a review of the interim financial information does not provide assurance that the audit firm will be aware of all significant matters which would have been identified in an audit. Accordingly, we do not express an opinion.

Basis for the Qualified Conclusion

As explained in Section Five Part II.5.b of the Explanations and Notes to the Unconsolidated Financial Statements, a portion of the free provision amounting to TL 230.000 thousand is reversed in the current period out of the total free provision of TL 1.850.000 thousand, which was provided by the Bank management in prior years outside of the requirements of BRSA Accounting and Financial Reporting Legislation, the remaining free provision classified under other provisions amounts to TL 1.620.000 thousand. If the mentioned free provision had not been provided in prior years and had not been partially reversed in the current period, other provisions would have decreased by TL 1.620.000 thousand, and net profit and shareholders' equity would have decreased by TL 230.000 thousand and increased by TL 1.620.000 thousand, respectively, for the period ended 31 March 2026.

Qualified Conclusion

Based on our review, except for the effects of the matter on the interim unconsolidated financial statements described in the basis for the qualified conclusion paragraph above, nothing has come to our attention that causes us to believe that the accompanying interim unconsolidated financial information do not present fairly in all material respects the unconsolidated financial position of Albaraka Türk Katılım Bankası Anonim Şirketi at 31 March 2026 and its unconsolidated financial performance and its unconsolidated cash flows for the three-month period then ended in accordance with the BRSA Accounting and Financial Reporting Legislation.

Report on other regulatory requirements arising from legislation

Based on our review, nothing has come to our attention that causes us to believe that the financial information provided in the accompanying interim activity report in Section Seven, is not consistent with the reviewed unconsolidated financial statements and disclosures in all material respects.

Additional Paragraph for Convenience Translation:

BRSA Accounting and Financial Reporting Legislation explained in detail in Section Three differ from International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board including the application of IAS 29 - Financial Reporting in Hyperinflationary Economies as of 31 March 2026. Accordingly, the accompanying unconsolidated financial statements are not intended to present fairly the unconsolidated financial position, results of operations, changes in equity and cash flows of the Bank in accordance with IFRS.

ALBARAKA TÜRK KATILIM BANKASI A.Ş.
NOTES RELATED TO UNCONSOLIDATED FINANCIAL STATEMENTS
AS OF MARCH 31, 2026

(Thousand of Turkish Lira (TL) unless otherwise stated)

SECTION ONE

GENERAL INFORMATION

I. History of the Bank including its incorporation date, initial legal status and amendments to legal status:

Albaraka Türk Katılım Bankası Anonim Şirketi (the Bank) was incorporated on November 5, 1984 with the name of Albaraka Türk Özel Finans Kurumu A.Ş., based on the decision of the Council of Ministers numbered 83/7506 and dated December 16, 1983 regarding establishments of Special Finance Houses and obtained the operating permission from the Central Bank of Türkiye with the letter numbered 10912 and dated January 21, 1985.

Special Finance Houses, operating in accordance with the Communiqués of Under Secretariat of Treasury and the Central Bank of Türkiye based on the decision of Council of Ministers numbered 83/7506, have been subjected to the provisions of the Banking Law numbered 4389 with the change of law dated December 17, 1999 and numbered 4491. Special Finance Houses have been subjected to the provisions of "Communiqué Related to the Incorporation and Activities of Special Finance Houses" published in the Official Gazette dated September 20, 2001 numbered 24529 by the Banking Regulation and Supervision Agency (BRSA). 'Communiqué Related to the Incorporation and Activities of Special Finance Houses' has been superseded by the 'Communiqué Related to Credit Operations of Banks' published in the Official Gazette dated November 1, 2006 numbered 26333 and the Bank operates in accordance with the Banking Law numbered 5411 published in the Official Gazette dated November 1, 2005 numbered 25983.

The decision regarding the change in the title of the Bank, in relation with the provisions of the Banking Law numbered 5411, was agreed in the Extraordinary General Meeting dated December 21, 2005 and the title of the Bank was changed as "Albaraka Türk Katılım Bankası A.Ş.". The change in the title was registered in İstanbul Trade Registry on December 22, 2005 and published in the Trade Registry Gazette dated December 27, 2005, numbered 6461.

The Bank's head office is located in İstanbul and is operating through 223 (December 31, 2025: 223) local branches and 3 (December 31, 2025: 2) foreign branches and with 2.787 (December 31, 2025: 2.815) staff as of March 31, 2026.

II. Shareholding structure, shareholders having direct or indirect, joint or individual control over the management and supervision of the Bank and the disclosures on related changes in the current year, if any:

As of March 31, 2026, 53,39% (December 31, 2025: 45,09%) of the Bank's shares are owned by Albaraka Group, 42,03% (December 31, 2025: 42,02%) of the shares are publicly traded and quoted at Borsa İstanbul. Rest belongs to different real persons and corporate entities. Dallah Albaraka Holding, a partner of the Bank, has transferred its shares in the Bank's capital to the current majority shareholder, Albaraka Group, during the current period. This transaction does not result in any change in the Bank's ownership structure.

IV. Information on the Bank's qualified shareholders:

The Bank's paid in capital amounting to TL 2.500.000 consists of 2.500.000.000 number of shares with a nominal value of TL 1 (full) for each share. TL 1.334.860 of the paid in capital is owned by qualified shareholders who are listed below.

Name/commercial name	Share amount (nominal)	Share ratio	Paid shares	Unpaid shares
Albaraka Group	1.334.860	%53,394	1.334.860	-

ALBARAKA TÜRK KATILIM BANKASI A.Ş.
NOTES RELATED TO UNCONSOLIDATED FINANCIAL STATEMENTS
AS OF MARCH 31, 2026

(Thousand of Turkish Lira (TL) unless otherwise stated)

V. Summary on the Bank's service activities and field of operations:

The Bank operates in accordance with the principles of interest-free banking as a participation bank. The Bank mainly collects funds through current accounts and participation accounts based on profit and loss sharing agreements and investment agency agreements, which are only for legal entities. Bank lends such funds through corporate finance support, retail finance support, profit/loss sharing investment, finance lease, financing commodity against document and joint investments.

The Bank classifies current and profit-sharing accounts separately from other accounts in accordance with their maturities. Profit sharing accounts are classified under six different maturity groups; up to one month, up to three months (three months included), up to six months (six months included), up to one year (one year included), one year and more than one year (with monthly, quarterly, semiannual and annual profit share payment) and accumulated participation accounts. The Bank may determine the profit rate following operating the participation accounts or estimated rates for investment agencies. The rate of participation accounts' participation to the loss is one hundred percent. The Bank constitutes specific fund pools with minimum maturities of one month, to be allocated to individually predetermined projects for financing purposes. Profit sharing accounts, which are part of the funds collected for project financing purpose, are managed in accordance with their maturities and independently from other accounts and transfers from these accounts to any other maturity groups are not executed. Specific fund pools are liquidated at the end of the financing period.

In addition to its ordinary banking activities, the Bank operates as an insurance agency, as a private pension insurance agency and as a brokerage agency through its branches, engages in purchase and sale of precious metals, provides intermediary services in quick money transfers, credit card and member business (P.O.S.) services. Moreover, the Bank is involved in providing non-cash loans that mainly comprise letters of guarantee, letters of credit and acceptances.

Transactions which can be carried out by the Bank are not limited to the clauses listed above. If any activities other than those mentioned are considered as beneficial to the Bank, the application must be recommended by the Board of Directors, approved by the General Assembly and authorized by relevant legal authorities which then needs to be approved by the Ministry of Trade since such applications are amendments in nature to the Article of Association. The application is included in the Article of Association after all necessary approvals are obtained.

VI. The existing or potential, actual or legal obstacles on immediate transfer of equity or reimbursement of liabilities between the Bank and its subsidiaries:

There is no immediate transfer of equity between the Bank and its subsidiaries. There is no existing or potential, actual or legal obstacle to the reimbursement of liabilities between the Bank and its subsidiaries.

ALBARAKA TÜRK KATILIM BANKASI A.Ş.
UNCONSOLIDATED STATEMENT OF CHANGES IN SHAREHOLDERS' EQUITY
AS OF MARCH 31, 2026

(Thousand of Turkish Lira (TL) unless otherwise stated)

SECTION THREE

Accounting Policies

I. Explanations on basis of presentation:

a. The preparation of the financial statements and related notes and explanations in accordance with the Turkish Accounting Standards and Regulation on the Principles and Procedures Regarding Banks' Accounting Application and Safeguarding of Documents:

The Bank has prepared its financial statements in accordance with the "Regulation on Principles and Procedures Regarding Accounting Applications of Banks and Safeguarding of Documents" published in the Official Gazette dated 1 November 2006 and numbered 26333, as well as other regulations regarding the accounting and recording systems of banks published by the Banking Regulation and Supervision Agency ("BRSA"), circulars, interpretations, and the "BRSA Accounting and Financial Reporting Legislation" Interim Financial Reporting Standards and Turkish Financial Reporting Standards ("TFRS") published by the Public Oversight Accounting and Auditing Standards Authority ("POA") for matters not covered by these regulations. Additionally, the Communiqué on Financial Statements to be Announced to the Public by Banks and the Related Explanations and Footnotes" and the "Communiqué on Disclosures to be Made to the Public by Banks on Risk Management" published in the Official Gazette dated 28 June 2012 and numbered 28337, as well as the communiqués supplementing and amending these, have been considered in the preparation of the financial statements.

The format and content of the publicly announced unconsolidated financial statements and notes to these statements have been prepared in accordance with the "Communiqué on Publicly Announced Financial Statements, Explanations and Notes to These Financial Statements", published in Official Gazette numbered 28337, dated June 28, 2012, and amendments to this Communiqué. The Bank maintains its books in Turkish Lira in accordance with the Banking Act, Turkish Commercial Code and Turkish Tax Legislation.

The financial statements have been prepared in TL, under the historical cost convention except for the financial assets, liabilities and revalued real estates carried at fair value.

Public Oversight Accounting and Auditing Standards Authority ("POA"), with its announcement dated November 23, 2023, applied that the financial statements of businesses applying Turkish Financial Reporting Standards for the annual reporting period ending on or after December 31, 2023 should be prepared in accordance with the Financial Reporting in Hyperinflationary Economies ("TAS 29"), however, institutions or organizations authorized to regulate and supervise in their own fields may determine different transition dates for the applying of TAS 29. Based on this announcement of POA, BRSA, with its decision dated December 12, 2023 and numbered 10744, decided that the financial statements dated December 31, 2023 of banks and financial leasing, factoring, financing, savings financing and asset management companies should not be subject to the inflation adjustment required within the scope of TAS 29. In accordance with the BRSA's decision dated January 11, 2024 and numbered 10825, it has been decided that banks and financial leasing, factoring, financing, savings financing and asset management companies will be applied inflation accounting as of January 1, 2025. Finally, BRSA's decision dated January 5, 2024 and numbered 11021 and December 18, 2025 and numbered 11340, it has been decided that banks and financial leasing, factoring, financing, savings financing and asset management companies would not apply inflation accounting in 2025. Accordingly, the Bank has not applied the inflation accounting required by TAS 29 in its unconsolidated financial statements for the year ended March 31, 2026.

The TFRS 17 Insurance Contracts standard, published by the Public Oversight, Accounting and Auditing Standards Authority ("POA") on February 16, 2019, to be applied for financial periods starting after December 31, 2022, establishes the principles for the recognition, measurement, presentation, and disclosure of insurance contracts within its scope. The aim of TFRS 17 is to ensure that businesses present these contracts in a way that reflects their true nature. ("POA") has decided that TFRS 17 will be applied in the consolidated and individual financial statements of companies starting from January 1, 2024. However, according to POA's letter dated February 15, 2024, and numbered 22667, the effective date of TFRS 17 has been postponed to January 1, 2025. With POA's latest announcement, the mandatory effective date of the standard has been further postponed to financial periods beginning on or after January 1, 2027.

b. Accounting policies and valuation principles used in the preparation of financial statements:

The differences between accounting principles, as described in these preceding paragraphs and accounting principles generally accepted in countries in which unconsolidated financial statements are to be distributed and International Financial Reporting Standards ("IFRS") have not been quantified in these unconsolidated financial statements. Accordingly, these unconsolidated financial statements are not intended to present the financial position, results of operations and changes in financial position and cash flows in accordance with the accounting principles generally accepted in such countries and IFRS.

ALBARAKA TÜRK KATILIM BANKASI A.Ş.
NOTES RELATED TO UNCONSOLIDATED FINANCIAL STATEMENTS
AS OF MARCH 31, 2026

(Thousand of Turkish Lira (TL) unless otherwise stated)

I. Explanations on basis of presentation (continued):

b. Accounting policies and valuation principles applied in the preparation of financial statements: (Continued)

The accounting policies and valuation principles applied in the preparation of unconsolidated financial statements, are determined and applied in accordance with regulations, communiqués, explanations and circulars on accounting and financial reporting principles published by the BRSA, and in case where there is no special regulation made by the BRSA, in accordance with principles in the context of TFRS.

The preparation of the unconsolidated financial statements according to BRSA Reporting and Accounting Legislation requires the Bank's management to make estimates and assumptions related to assets and liabilities in the balance sheet and contingent issues as of the balance sheet date. Such estimates and assumptions include the fair value calculations of the financial instruments, provisions for the lawsuits, deferred tax assets and liabilities, impairment of the financial assets and revaluation of immovables and reviewed periodically and when adjustments are considered necessary, they are reflected in the financial statements. The assumptions and estimates used are explained in the related notes. Accounting policies and evaluation principles in preparing Financial statements are determined and applied as per the principles stated in "BRSA Accounting and Financial Reporting Legislation" and consistent with the accounting policies applied for December 31, 2024 financial statements.

c. Restatement of the financial statements according to the current purchasing power of money:

Accompanying financial statements are subjected to TAS 29 "Financial Reporting in Hyperinflationary Economies" until December 31, 2004 and with regard to this the BRSA explained with its decision numbered 1623 and dated April 21, 2005 and its circular dated April 28, 2005 that the conditions for applying inflation accounting was no longer applicable and accordingly inflation accounting has not been applied in the accompanying financial statements starting from January 1, 2005.

d. Comparative information and classifications:

The changes in accounting policies are applied retrospectively and previous period financial statements are restated. The Financial statements of the Bank are prepared comparative to the previous term in order to determine its financial position and performans trends. If appropriate, the comparative information are restated in order to provide comparativeness to the statements of current period financial statements.

II. Explanations on strategy of using financial instruments and foreign currency transactions:

The Bank creates its strategies on financial instruments considering its sources of financing. The main financing sources consist of current and profit-sharing accounts. Other than current and profit-sharing accounts, the Bank's most important funding sources are its equity and borrowings from foreign financial institutions. The Bank sustains its liquidity to cover matured liabilities by holding adequate level of cash and cash equivalents.

The Bank's transactions in foreign currencies are accounted in accordance with the TAS 21 "Accounting Standard on the Effect of Changes in Foreign Currency Rates" and converted with the exchange rate ruling at the transaction date into Turkish Lira. Foreign currency assets and liabilities have been converted into Turkish Lira at the rate of exchange rates ruling at the balance sheet date announced by the Bank. Gains or losses arising from foreign currency transactions and conversion of foreign currency assets and liabilities are reflected in the income statement as foreign exchange gain or loss.

If the loans recognized in the foreign currency accounts are switched to non-performing, they are continued to be recognized in the foreign currency accounts and evaluated with the current exchange rates.

Differences arising from the conversion of debt securities and monetary financial assets into Turkish Lira are included in the income statement.

The balance sheet items of the foreign branches of the Bank included in the financial statements are converted into Turkish lira at the exchange rate ruling at the balance sheet date announced by the Bank. Income statement items are converted into Turkish lira by exchange rate ruling at the transaction date and all exchange differences arising from conversion are accounted in other comprehensive income/expense Items to be recycled to profit or loss under equity according to TAS 21.

Precious metals (gold and silver) accounted under assets and liabilities which do not have fixed maturity are converted into Turkish lira by using the buying rate at the balance sheet date announced by the Bank and resulting evaluation differences are reflected as foreign exchange gain or loss.

There are no foreign currency differences capitalized by the Bank.

ALBARAKA TÜRK KATILIM BANKASI A.Ş.
UNCONSOLIDATED STATEMENT OF CHANGES IN SHAREHOLDERS' EQUITY
AS OF MARCH 31, 2026

(Thousand of Turkish Lira (TL) unless otherwise stated)

III. Explanations on forward, option contracts and derivative instruments:

The derivative financial instruments of the Bank, generally, consist of forward foreign currency, forward security and swap agreements. Derivative transactions portfolio may change as per market conditions in related terms. The Bank records the spot foreign currency transactions in asset purchase and sale commitments.

The liabilities and receivables arising from the derivative transactions are recorded as off-balance sheet items at their contract values. Derivative transactions are initially recorded at their fair values. In the periods following the recognizing of derivative transactions, depending on whether the fair value is positive or negative, the portion which is reflected to Income Statement for derivative assets and derivative liabilities are represented in Balance Sheet. Differences in fair values as a result of the valuation are recognized in trading income/loss line in the Income Statement as profit (loss) from derivative financial instruments and foreign exchange income (loss).

IV. Explanations on profit share income and expenses:

Profit share income

Profit share income is accounted in accordance with the internal rate of return method, which is equal to the net present value of the future cash flows of the financial asset determined in TFRS 9 and reflected to the accrual basis.

Profit-loss Investment projects are recognized under the "Loans" account in the balance sheet. Profit and loss investment projects are subject to valuation periodically every year and positive differences related to valuation are represented under "Profit Share on Loans".

The Bank has begun to calculate accrual for non-performing loans as of January 1, 2018. Net book value of non-performing receivables (Gross Book Value - Expected Loss Provision) is accounted at the gross book value of accruals with effective profit share rate.

Profit share expense

The Bank records profit share expenses on accrual basis. The profit share expense accrual calculated in accordance with the unit value method on profit sharing accounts has been included under the account "Funds Collected" in the balance sheet.

V. Explanations on fees, commission income and expenses:

Other than commission income and fees and expenses for various banking services that are reflected as income/expense when collected/paid, fees and commission income and expenses are reflected to income statement depending on the term of the related transaction. The commissions and fees other than those whose amortised costs are integral part of their effective profit rate, are accounted for in accordance with the TFRS 15 Revenue from Contracts With Customers Standard.

In accordance with provisions of TFRS, the portion of the commission and fees which are related to the reporting period and collected in advance for cash and non-cash loans granted is reflected to the income statement by using the internal rate of return method and straight line methods, respectively over the commission period of the related loan, respectively. Fees and commissions collected in advance which are related to the future periods are recorded under the account "Unearned Revenues" and included in "Other Liabilities" in the balance sheet. The commission received from cash loans corresponding to the current period is presented in "Profit Share from Loans" in the statement of profit or loss.

In the correspondence of BRSA dated June 8, 2012 and numbered B.02.1.BDK.0.13.00.0-91.11-12061, it has been stated that there is no objection to recording the commissions received from long term non-cash loans collected in quarterly periods or periods less than a quarter directly as income. Consequently, the Bank records the related cash and non-cash loans commissions directly as income.

VI. Explanations on financial assets:

Financial assets are recognized or derecognized according to TFRS 9 section three: "Recognition and Derecognition". Financial assets are measured at fair value at initial recognition in the financial statements. During the initial recognition of financial assets other than "Financial Assets at Fair Value through Profit or Loss", transaction costs are added to fair value or deducted from fair value. They are included in the balance sheet of the Bank, if the Bank is a legal party to these instruments. On which category financial instruments shall be classified at initial recognition depends on both the business model for managing the financial assets and the contractual cash flow characteristics of the financial asset.

ALBARAKA TÜRK KATILIM BANKASI A.Ş.
NOTES RELATED TO UNCONSOLIDATED FINANCIAL STATEMENTS
AS OF MARCH 31, 2026

(Thousand of Turkish Lira (TL) unless otherwise stated)

VI. Explanations on financial assets (continued):

Assessment of business model:

As per TFRS 9, the Bank's business model is determined at a level that reflects how groups of financial assets are managed together to achieve a particular business objective.

The Bank's business model does not depend on management's intentions for an individual instrument. Accordingly, this condition is not a classification approach on the basis of a financial instrument but an evaluation by combining financial assets. The Bank's business models are divided into three categories. These categories are defined below:

a) The Business model whose objective is to hold assets in order to collect contractual cash flows:

A business model whose objective is to hold assets in order to collect contractual cash flows over the life of the instrument. The financial assets that are held within the scope of this business model are measured at amortised cost when the contractual terms of the financial asset meet the cash flow test that includes profit share payments arising only from principal and principal amount at specific dates.

b) The Business model whose objective is achieved by both collecting contractual cash flows and selling financial assets:

The Bank's business model for holding financial assets is both to collect contractual cash flows and to sell financial assets. Financial assets held under this business model are measured at fair value through other comprehensive income if the contractual terms of the financial asset pass the cash flow test, which includes profit share payments arising solely from principal and principal balance at specified dates.

c) Other Business Models:

Financial assets are measured at fair value through profit or loss if they are not held within a business model whose objective is to hold assets to collect contractual cash flows or within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets.

Contractual cash flows that contains solely payments of principal and profit share:

As per TFRS 9, the Bank classifies a financial asset on the basis of its contractual cash flow characteristics if the financial asset is held within a business model whose objective is to hold assets to collect contractual cash flows or within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets.

Financial assets at the fair value through profit or loss:

Financial assets at fair value through profit/loss are financial assets other than the ones that are managed with business model that aims to hold to collect contractual cash flows or business model that aims to collect both the contractual cash flows and cash flows arising from the sale of the assets; and if the contractual terms of the financial asset do not lead to cash flows representing solely payments of principal and profit share at certain date; that are either acquired for generating a profit from short-term fluctuations in prices or are financial assets included in a portfolio aiming to short-term profit making. Financial assets at the fair value through profit or loss are initially recognized at fair value and remeasured at their fair value after recognition. All gains and losses arising from these valuations are reflected in the income statement. The Bank recognizes profit and loss investments under "loans" as per BRSA uniform chart of accounts and measures them at fair value considering TFRS 9 provisions. The fair value measurements of profit and loss investments are based on the valuation reports prepared by the valuation experts.

In evaluating profit share investment projects various assumptions and estimations have been used. Work projects, discount rates and fair value parameters may fluctuate and sensitive to economical conjuncture, sectoral position and other market conditions.

ALBARAKA TÜRK KATILIM BANKASI A.Ş.
UNCONSOLIDATED STATEMENT OF CHANGES IN SHAREHOLDERS' EQUITY
AS OF MARCH 31, 2026

(Thousand of Turkish Lira (TL) unless otherwise stated)

VI. Explanations on financial assets (continued):

Financial assets at the fair value through profit or loss (continued):

Sukuk (lease certificates) which are represented under financial assets measured at fair value through profit/loss are evaluated with the weighted average clearing prices in Istanbul Stock Exchange and which are not quoted in Istanbul Stock Exchange evaluated with their prices determined in Central Bank of Türkiye.

As per the correspondence by BRSA numbered E-43890421-101.02.02-7182, the accounting of outright repurchase and sales of investment funds under Financial Assets Measured at Fair Value through Profit/Loss are approved Bank's Advisory Committee in accordance with its decisions on condition that there is no agreement and/or condition with the customer regarding repurchase/resale and there is not even a custom that there is an obligation to repurchase/resale. Profits or losses arising from buying and selling are accounted in Capital Market Transaction Income/(Loss) under Trading income/ loss.

Financial assets at fair value through other comprehensive income:

In addition to financial assets within a business model that aims to hold to collect contractual cash flows and aims to hold to sell, financial asset with contractual terms that lead to cash flows are solely payments of principal and profit share at certain dates, they are classified as fair value through other comprehensive income. Financial assets at fair value through other comprehensive income are recognized by adding transaction cost to acquisition cost reflecting the fair value of the financial asset. After the recognition, financial assets at fair value through other comprehensive income are remeasured at fair value.

Profit share income calculated with effective profit share rate method arising from financial assets at fair value through other comprehensive income and dividend income from equity securities are recorded to income statement.

"Unrealized gains and losses" arising from the difference between the amortized cost and the fair value of financial assets at fair value through other comprehensive income are not reflected in the income statement of the period until the acquisition of the value corresponding to the asset, sale of the asset, the disposal of the asset, and impairment of the asset and they are accounted under the "Accumulated Other Comprehensive Income or Expense to be Reclassified through Profit or Loss" under shareholders' equity. The accumulated fair value differences that are reflected in shareholders' equity are reflected in the income statement when the stated securities are collected or disposed.

Equity securities, which are classified as financial assets at fair value through other comprehensive income are accounted for at fair value when they are traded in an organized market and/or the fair value can be reliably measured and these financial assets are not subject to expected losses recognition. The valuation differences of the mentioned securities are accounted under the "Accumulated Other Comprehensive Income or Expenses that will not be Reclassified to Profit or Loss" in shareholders' equity.

Financial assets measured at amortized cost:

Financial assets that are held for collection of contractual cash flows within the scope of business model where those cash flows represent solely payments of principal and profit share on certain dates are classified as financial assets measured at amortized cost.

Financial assets measured at amortized cost are initially recognized at acquisition cost including the transaction costs which reflect the fair value of those instruments and subsequently recognized at amortized cost by using effective internal rate of return method. Profit share income obtained from financial assets measured at amortized cost is accounted in income statement.

Loans:

Loans are non-derivative financial assets that have fixed or determinable payments terms and are not quoted in an active market. Stated loans are initially recognized at acquisition cost plus transaction costs presenting their fair value and thereafter measured at amortized cost using the "Effective Profit Share Rate (internal rate of return) Method".

The Bank's all loans including profit and loss investments are recorded under the "Measured at Amortized Cost" account. As per BRSA uniform chart of accounts, the bank recognizes profit and loss investments under "loans" and considering TFRS 9 provisions, measures them at fair value. Granted cash loans are accounted by using the relevant accounts in accordance with the principles set out in the "Uniform Chart of Accounts to be Applied by the Participation Banks" and published in the Official Gazette dated September 20, 2017 and numbered 30186.

The Bank periodically evaluates the provisions allocated for loans and other receivables as per TFRS 9 retrospectively and as a result of those evaluations, if appropriate, updates the classification rules and parameters on allocation of provisions.

ALBARAKA TÜRK KATILIM BANKASI A.Ş.
NOTES RELATED TO UNCONSOLIDATED FINANCIAL STATEMENTS
AS OF MARCH 31, 2026

(Thousand of Turkish Lira (TL) unless otherwise stated)

VII. Explanations on expected credit losses:

The Bank allocates impairment for expected loss on financial assets measured at amortized cost and measured at fair value through other comprehensive income. As of January 1, 2018, the Bank recognizes provisions for impairment in accordance with TFRS 9 requirements according to the "Regulation on the Procedures and Principles for Classification of Loans by Banks and Provisions to be set aside" published in the Official Gazette dated 22 June 2016 numbered 29750. In this framework, as of January 1, 2018, method of provisions for impairment as set out in accordance with the related legislation of BRSA is changed by applying the expected credit loss model under TFRS 9.

The provisions written back are credited to "provision expenses", and if such write backs are arising from previous year they are accounted under "other operating income". The expected credit loss model includes instruments that are recorded at amortized cost or at fair value in other comprehensive income tables (such as bank deposits, loans and finance lease receivables) and, in addition, financial lease receivables that are not measured at fair value through profit or loss, credit commitments and financial guarantee contracts.

As stated in the note on accounting policies and valuation principles followed in the preparation of the financial statements, the Bank has reflected the estimates and judgments used in calculating credit losses as of December 31, 2025, using the principle of utmost care and the best estimation method. Except for individual assessment in provisioning parameters, base scenario rate has been updated as 80%, negative condition scenario rate has been updated as 20% and positive condition scenario has been revoked.

-In order to calculate the impact of macroeconomic developments on lifetime expected credit losses, a model was established using approximately 8 years of data from the first quarter of 2017 to the third quarter of 2025. In this model NPL rates of the banks operating in the same sector has been used and supportive data from previous terms have been received. As a result of model update studies, the parameters of the annual change rate of the dollar exchange rate in macroeconomic scenarios, the monthly domestic producer price index value of the previous year, the annual change rate of the housing price index, and the quarterly change rate of the real monthly interest rate have been found meaningful.

In this context, this approach, which was preferred in the calculation of provisions at the end of 2025, has been maintained and will be reviewed again in subsequent reporting periods, taking into account changes in the credit portfolio and future expectations. The guiding principle of the expected credit loss model is to reflect the increase in credit risk of financial instruments or the general view of the recovery. The amount of allowance for the loss depends on the extent of the increase in credit risk since the initial issuance of the loan.

Expected credit loss is an estimate of the expected credit losses over the life of a financial instrument also the following aspects are important for the measurement;

- Probability-weighted and neutral amount determined by taking into account possible outcomes,
- Reasonable and supportable information on past events, current conditions and forecast of future economic conditions, at the time of reporting, without excessive cost and effort.

Provisions for these financial assets are calculated using two different approaches: 12-month expected loss and expected lifetime loss. Credit risk parameters used in the calculations are as follows:

Parameters used when calculating expected credit losses:

Probability of Default (PD):

PD refers to the likelihood that a loan will default within a specified time horizon. Based on TFRS 9, the Bank uses two different PDs in order to calculate expected credit losses:

- 12 Months PD: As the estimated probability of default occurring within the next 12 months following the reporting date.
- Lifetime PD: As the estimated probability of default occurring over the remaining life of the financial instrument.

The default probability parameters used are updated as a result of calibration studies conducted based on current portfolio data.

Loss Given Default (LGD):

If a loan default occurs, it represents the economic loss incurred on the loan. It is expressed as a percentage.

THK estimates are calculated based on the Bank's historical collection data and non-performing loan balances, taking into account the related expense items.

Exposure at Default (EAD):

For cash loans, it corresponds to the amount of loan granted as of the reporting date. For non-cash loans and commitments, it is the value calculated through using credit conversion factors. Credit conversion rate corresponds to the factor, which adjust the potential increase of the exposure between the current date and the default date.

Financial Assets are divided into the following three categories depending on observable increases in their credit risks.

ALBARAKA TÜRK KATILIM BANKASI A.Ş.
UNCONSOLIDATED STATEMENT OF CHANGES IN SHAREHOLDERS' EQUITY
AS OF MARCH 31, 2026

(Thousand of Turkish Lira (TL) unless otherwise stated)

VII. Explanations on expected credit losses (continued):

12 Month Expected Credit Losses (Stage 1)

For the financial assets at initial recognition or that do not have a significant increase in credit risk since initial recognition and the delay days do not exceed 30 days. Impairment for credit risk is recorded in the amount of 12-month expected credit losses. It is valid for all assets unless there is a significant deterioration in the quality of the loan. The expected 12-month loss values (within 12 months after the reporting date or within a shorter period if the life of a financial instrument is shorter than 12 months) are part of the estimation of loss of life expectancy.

Significant Increase in Credit Risk (Stage 2)

In the event of a significant increase in credit risk since initial recognition, the financial asset is transferred to Stage 2. Impairment for credit risk is determined on the basis of the instrument's lifetime expected credit losses.

The Bank classifies financial assets as Level 2 by considering the following criteria:

- Loans with a delay over 30 days but not exceed 90 days
- The data obtained from the early warning system and the evaluation that the bank will make in this case
- The Bank management's conclusion that there is significant increase in credit risk. At this point, the Bank compares probability of default of the loan in its origination with current status.
- Loans for which the repayment amount is fully collateralized and the collateral falls below the net realizable value.

Default (Stage 3/Specific Provision):

If the following conditions exist in accordance with the Bank's internal procedures, the related financial asset is evaluated as default:

- Loans past 90 days from the last installment date
- Loans restructured and classified as performing receivables and restructured in the 1-year monitoring period at least once again and & or loans whose principal / profit payment is 30 days overdue.

The collective assessment of financial instruments is performed by building on homogeneous group assets arising from portfolio segmentation based on similar credit risk and product characteristics. This section provides an overview of the risk parameter estimation methods associated with the expected loss calculation approach for each stage on a common basis.

Loans whose cash flows differ or have different characteristics from other loans can be evaluated individually instead of collectively. Expected credit loss can be defined as the difference between all contractual cash flows due as per the whole contract and cash flows expected to be collected that have been discounted with the original effective profit ratio. When measuring expected credit losses, the Bank shall consider the risk or probability that a credit loss occurs by reflecting the possibility that a credit loss occurs and the possibility that no credit loss occurs, even if the possibility of a credit loss occurring is very low. The Bank makes such assessment by reflecting the estimate of expected credit loss which is unbiased and probability-weighted determined by evaluating a range of possible outcomes.

The following situations are taken into account when estimating cash flows.

- The conditions of the contract during the expected life of the financial instrument,
- Cash flows expected to be obtained from collateral sales.

Behavioral Maturity Calculation Methodology

Expected loss provision is calculated until end of the maturity for stage one loans whose remaining maturity is less than one year and calculated yearly for stage one loans whose remaining maturity is more than one year. For second group loans, it is calculated lifelong (until the end of maturity). In this calculation, the remaining maturity information of the loan is taken as basis for each loan. While this information is used for products with real maturity information, for products without real maturity information, behavioral maturity is calculated by analyzing historical data. Expected loss provision calculations are made over these maturities, depending on the type of loan.

Write-Off Policy

Within the framework of the provisions of the "Regulation Amending the Regulation on the Procedures and Principles Regarding the Classification of Loans and Provisions to be set aside for them" published in the Official Gazette dated July 6, 2021 and numbered 31533, the portion of the loans that are classified under "Fifth Group-Loans with a Loss Qualification" and for which a lifetime expected loan loss provision or special provision is made due to the default of the borrower, for which there are no reasonable expectations for the recovery of the loans, as of the first reporting period following their classification in this Group, are written off from the records in an appropriate time determined by the bank, taking into account the situation of the debtor within the scope of TFRS 9. Writing off loans from the records is an accounting practice and does not result in waiving the right to the receivable, but the legal process continues.

ALBARAKA TÜRK KATILIM BANKASI A.Ş.
NOTES RELATED TO UNCONSOLIDATED FINANCIAL STATEMENTS

(Thousand of Turkish Lira (TL) unless otherwise stated)

VIII. Explanations on offsetting of financial instruments:

Financial instruments are offset when the Bank has a legally enforceable right to net off the recognized amounts, and there is an intention to settle on net basis or realize the asset and settle the liability simultaneously.

The sukuk certificates issued by the Bank which are repurchased has been offset in financial assets measured at fair value through other comprehensive income and subordinated loan accounts.

IX. Explanations on sale and repurchase agreements and lending of securities:

Securities subject to repurchase agreement are classified as “Financial Assets Measured at Fair Value through Profit/Loss”, “Financial Assets Measured at Fair Value through Other Comprehensive Income” and “Financial Assets Measured at Amortised Cost” according to the investment purposes of the Bank and measured according to the portfolio to which they belong. Funds obtained from the related agreements are accounted under “Borrowings from Money Markets” in liabilities and the difference between the sale and repurchase price is accrued over the life of the agreements using the internal rate of return method. Profit share expense on such transactions is recorded under “Profit Share Expense on Money Market Borrowings” in the income statement.

X. Explanations on assets held for sale and discontinued operations and liabilities related to these assets:

Assets held for sale (or disposal group) are measured at the lower of the carrying amount of assets and fair value less any cost to be incurred for disposal and the amortising for these assets is stopped. In order to classify an asset as held for sale, the possibility of sale should be highly probable and the asset (or disposal group) should be available for immediate sale in its present condition. Highly saleable condition requires a plan designed by an appropriate level of management regarding the sale of the asset to be disposed of together with an active program for the determination of buyers as well as for the completion of the plan. Also, the asset shall be actively marketed in conformity with its fair value. In addition, the sale is expected to be recognized as a completed sale within one year after the classification date and the necessary transactions and procedures to complete the plan should demonstrate the fact that there is remote possibility of making any significant changes in the plan or cancellation of the plan.

The Bank has assets that are possessed due to receivables and debtors’ obligations to the Bank and classified as assets held for sale. In the case that the Bank has not disposed of such assets within a year of receipt or failed to produce a solid plan for sale of the assets, they are reclassified as other assets. The Bank transfers such assets from assets held for sale and discounted operations to other assets.

A discontinued operation is a part of the Bank’s business which has been disposed of or classified as held for sale. The operating results of the discontinued operations are disclosed separately in the income statement. As stated in the Public Disclosure Platform (PDP) material event disclosure dated April 3, 2024, with the initiation of the liquidation process of Getinsha GMBH, a subsidiary of the Bank, the related subsidiary has been classified as discontinued operations.

XI. Explanations on goodwill and other intangible assets:

Goodwill and other intangible assets are recorded at cost in accordance with TAS 38 “Turkish Accounting Standards for Intangible Assets”. As of the balance sheet date, there is no goodwill in the financial statements of the Bank. The Bank’s intangible assets consist of softwares, capitalized information technology services and intangible rights.

The costs of the intangible assets purchased before December 31, 2004 have been restated from the purchasing dates to December 31, 2004, the date the hyperinflationary period is considered to be ended. Intangible assets purchased after this date have been recorded at their historical costs. Intangible assets are amortised by the Bank over their estimated economic useful lives in equal amounts on a straight-line basis.

Useful lives of the Bank’s software have been determined as 3 to 4 years and other intangible assets’ useful lives have been determined as 15 years.

If there is objective evidence of impairment, the asset’s recoverable amount is estimated in accordance with the TAS 36 “Turkish Accounting Standard for Impairment of Assets” and if the recoverable amount is less than the carrying value of the related asset, a provision for impairment loss is provided.

ALBARAKA TÜRK KATILIM BANKASI A.Ş.
NOTES RELATED TO UNCONSOLIDATED FINANCIAL STATEMENTS
AS OF MARCH 31, 2026

(Thousand of Turkish Lira (TL) unless otherwise stated)

XII. Explanations on tangible assets:

The cost of the tangible assets purchased before December 31, 2004 have been restated by inflationary index from the purchasing dates to December 31, 2004, the date the hyperinflationary period is considered to be ended. The tangible assets purchased after this date are recorded at their historical costs. Tangible assets are recorded at cost less accumulated depreciation and provision for impairment, if any in compliance with the TAS 16 "Turkish Accounting Standards for Tangible Assets" in the financial statements.

As of March 30, 2009, the Bank has made a change in accounting policy and adopted revaluation model for real estates in accordance TAS 16 and reflected the results of appraisal reports prepared by an authorized real estate appraisal firm to the financial statements.

As of December 31, 2025, the Bank has revalued its immovables and reflected the results of appraisal reports prepared by an independent real estate appraiser firms using comparison of similar items method to the financial statements. The revaluation fund mentioned cannot be distributed as dividend to shareholders. Current period depreciation charge relating to the revaluation has been recorded under revaluation surplus account.

There are no restrictions such as pledges, mortgages or any other restriction on tangible assets.

There are no changes in the accounting estimates which are expected to have an impact in the current or subsequent periods.

Depreciation is calculated on a straight-line basis. Depreciation rates used are determined by considering the estimated economic useful life of the assets. The annual rates used are as follows:

	Depreciation Rate (%)
Buildings	2
Motor vehicles	20 – 25
Furniture, fixture and office equipment	4 – 33
Safe-deposit boxes	2 – 20
Operational lease improvement costs (Leasehold improvements)	Leasing period – 5 years
Leased assets	1- 10 years

The depreciation of an asset held for a period less than a full financial year is calculated as a proportion of the full year depreciation charge from the date of acquisition to the financial year-end. Leasehold improvements are depreciated over their estimated economic useful lives in equal amounts. The estimated economic useful lives cannot exceed the leasing period. In cases where the leasing period is not certain, the useful life is determined as five years. After January 1, 2010, in cases where leasing period is more than five years, the useful life is determined as five years.

If there is an indication for impairment, the Bank estimates the recoverable amount of the tangible asset in accordance with TAS 36 "Turkish Accounting Standard for Impairment of Assets" and if the recoverable amount is less than its carrying value, provides for an impairment loss.

Fixed assets which are carried at fair value in the financial statements are revalued by independent Capital Markets Board licensed firms in accordance with TFRS 13.

Gain or loss resulting from disposals of the tangible assets is calculated as the difference between the net proceeds from the sale and the net book value of the related asset.

The repair and maintenance costs of the tangible assets are capitalized, if the expenditure increases the economic life of the asset. Other repair and maintenance costs are expensed. In accordance with TFRS 16, right-of-use asset is represented under tangible assets in the balance sheet.

ALBARAKA TÜRK KATILIM BANKASI A.Ş.
NOTES RELATED TO UNCONSOLIDATED FINANCIAL STATEMENTS
AS OF MARCH 31, 2026

(Thousand of Turkish Lira (TL) unless otherwise stated)

XIII. Explanations on leasing transactions:

Assets acquired under finance lease agreements are recorded as both an asset and a liability at the commencement of the lease. The lower of the fair value of the leased asset at the inception of the lease and the present value of the lease payments is used as the basis for determining the balances recorded as a right-of-use asset and a lease liability on the balance sheet. Finance costs arising from the lease agreements are expensed over the lease term, taking into account the internal rate of return for each period.

Assets acquired under finance lease contracts are depreciated over their useful lives and impairment provision is provided in case a decrease in recoverable amount has been determined. The Bank, as a participation bank, acts as a lessor in finance leasing transactions. The Bank presents finance leased assets as a receivable equal to the net investment in the lease. Financial income is based on a pattern reflecting a constant periodic rate of return on the net investment outstanding.

With the “IFRS 16 Leases” standard, which became effective as of 1 January 2019, the difference between the operating lease and financial lease was removed and the lease transactions were started to be recognised under “Tangible Fixed Assets” as an asset (tenure) and under “Lease Payables” as a liability. IFRS 16 Leases standard abolishes the dual accounting model currently applied for lessees through recognizing finance leases in the balance sheet whereas not recognizing operational lease. Instead, it is set forth a single model similar to the accounting of finance leases (on balance sheet). For lessors, the accounting continues almost the same.

The Bank has the exemption for not applying this standard to short-term leaseings (leases with a rental period of 12 months or less) or to leases where the underlying asset is of low value (eg personal computers, some office equipment, etc.). At the effective date of the lease, the Bank measures its leasing liability at the present value of the lease payments not paid at that time and depreciates the existence of the right to use as of the same date and is amortized over the lease term. If this ratio can be determined easily, lease payments are discounted using the Bank’s average profit rate.

If the ratio cannot be easily determined, the Bank uses its own alternative borrowing rate. The profit share expense on the lease liability and the depreciation charge of the right to use is recorded separately. The lessee re-measures the lease obligation if certain events occur (for example, changes in lease duration, forward lease payments due to changes in a particular index or rate, etc.). In this case, the lessee records the reassignment effect of the lease obligation as a correction on the right to use.

Right to use asset:

The right to use asset is first recognized by cost method and includes:

- The initial measurement amount of the lease obligation,
- The amount obtained by deducting all the rental incentives received from all lease payments made at or before the beginning of the lease;
- All initial direct costs incurred by the Bank and when applying the cost method, the existence of the right to use:
- Accumulated depreciation and accumulated impairment losses are deducted and
- Measures the restatement of the lease obligation at the restated cost.

While the Bank is depreciating the right-to-use asset, it utilizes the provisions for depreciation in TAS 16 Tangible Assets Standard

The lease liabilities:

At the effective date of the lease, the Bank measures its leasing liability at the present value of the lease payments not paid at that time. If this ratio can be determined easily, lease payments are discounted using the Bank’s average profit rate. If the ratio cannot be easily determined, the Bank uses its own alternative borrowing rate.

The lease payments included in the measurement of the lease liability consist of the payments to be made for the right of use during the lease term of the underlying asset and the unpaid payments at the effective date of the lease.

ALBARAKA TÜRK KATILIM BANKASI A.Ş.
NOTES RELATED TO UNCONSOLIDATED FINANCIAL STATEMENTS
AS OF MARCH 31, 2026

(Thousand of Turkish Lira (TL) unless otherwise stated)

XIII. Explanations on leasing transactions (continued):

After the effective date of the lease, the Bank measures the leasing liability as follows:

- Increases the book value to reflect the profit share rate on the lease obligation,
- Reduces the book value to reflect the lease payments made,
- Measures the book value to reflect reassessments and restructuring, or reflect the fixed lease payments, which is revised but inherently fixed.

The profit rate on the lease liability for each period in the lease period is the amount calculated by applying a fixed periodic profit rate to the remaining balance of the lease liability.

XIV. Explanations on provisions and contingent liabilities:

Provisions and contingent liabilities, excluding the expected loss provisions for loans, are accounted in accordance with TAS 37: "Turkish Accounting Standard for Provisions, Contingent Liabilities and Contingent Assets".

Provisions are recognized when the Bank has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate of the amount of the obligation can be made.

Pursuant to the eighth paragraph of Article 6 of the Regulation on Procedures and Principles Regarding the Acceptance, Withdrawal, and Expiration of Deposits, Participation Funds, Deposits, and Receivables, the Bank allocates a profit equalization reserve. This reserve is accounted for and reflected in the financial statements to ensure that profit shares to be distributed to participation account holders are realized in a stable manner over periods and to mitigate the impact of fluctuations that may occur in the returns to be obtained from participation accounts.

A provision for contingent liabilities arising from past events should be recognized in the same period of occurrence in accordance with the cut-off principle.

A liability is recognized as a contingent liability where a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of more than one events not wholly within the control of the Bank; or a present obligation that arises from past events but it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or the amount of the obligation cannot be measured with sufficient reliability and disclosed in the footnotes.

XV. Explanations on liabilities regarding employee rights:

i) *Defined benefit plans:*

Provision for employee severance benefits has been accounted for in accordance with TAS 19 "Employee Benefits".

In accordance with the existing social legislation in Türkiye, the Bank is required to make lump-sum termination indemnities including retirement and notice payments to each employee whose employment is terminated for reasons other than misconduct or due to resignation. The retirement pay is calculated for every working year within the Bank over salary for 30 days or the official ceiling amount per year of employment and the notice pay is calculated for the relevant notice period time as determined based on the number of years worked for the Bank.

The Bank has reflected the retirement pay liability amount, which was calculated by an independent actuary, in the accompanying financial statements. According to TAS 19, The Bank recognizes all actuarial gains and losses immediately through other comprehensive income. As of March 31, 2026, there is a total actuarial loss of TL 514.329 before deferred tax under equity (December 31, 2025: TL 514.329 actuarial loss).

Provision for the employees' unused vacations have been booked in accordance with TAS 19 and reflected to the financial statements.

There are no foundations, pension funds or similar associations of which the employees are members.

ii) *Defined contribution plans:*

The Bank pays defined contribution plans to publicly administered Social Security Funds for its employees. The Bank has not any further payment obligations other than this contribution share. The contributions are recognized as personnel expenses when they accrue.

iii) *Short term benefits to employees:*

In accordance with TAS 19, Bank measures the expected costs of the cumulative annual leaves as additional amounts anticipate to pay accumulated and unused rights as of reporting period.

ALBARAKA TÜRK KATILIM BANKASI A.Ş.
NOTES RELATED TO UNCONSOLIDATED FINANCIAL STATEMENTS
AS OF MARCH 31, 2026

(Thousand of Turkish Lira (TL) unless otherwise stated)

XVI. Explanations on taxation:

Current tax:

The Bank is subject to tax laws and legislation effective in Türkiye. In the financial statements as of March 31, 2026, the corporate tax rate is applied 30%. The corporate tax rate has been permanently increased to 25% for banks, consumer finance companies, factoring and financial leasing companies, electronic payment and money institutions, authorized foreign exchange institutions, asset management companies, capital market institutions, insurance and reinsurance companies and pension companies in accordance with the publication of the Law No. 7394 in the Official Gazette dated April 15, 2022. However, with the Law No. 7456 published on July 15, 2023, the rate has been increased to 30% in order to be applied to the cumulative bases included in the declarations to be submitted as of October 1, 2023; the corporate tax rate is applied as 30% as of this date.

Dividends paid to the resident institutions are not subject to withholding tax in Türkiye. Withholding tax rate on the dividend payments other than these is 15%. Appropriation of the retained earnings to capital is not considered as profit distribution and accordingly is not subject to withholding tax. Corporations calculate advance tax with their current rate on quarterly profits and pay until the evening of the same day by declaring until the 17th day of the second month following that period. The prepaid taxes can be deducted from the annual corporate tax calculated on the annual corporate income. The remaining prepaid tax, if any after deduction, can be refunded in cash or deducted from other financial liabilities to the government.

75% portion of the capital gains derived from the sale of equity investments and 50% portion of the capital gains derived from the sale of immovable properties held for at least two years is tax exempt, if such gains are added to paid-in capital or held in a special fund account under liability for five years. However, with the Law No. 7456 published on July 15, 2023, this exception has been abolished for real estate to be acquired after the publication date of the decision; If the real estates acquired before this date are sold after the effective date of the decision, 25% of the real estate sales revenue will be exempt from corporate tax.

In accordance with the tax legislation, tax losses can be carried forward to offset against future taxable income for up to 5 years. Tax losses cannot be carried back to offset profits from previous periods.

In Türkiye, there is no procedure for a final and definite agreement on tax assessments. Companies file their tax returns until the last day of the following fourth month after the closing of the accounting year to which they relate. Tax returns are open for five years from the beginning of the year that follows the date of filing during which time the tax authorities have the right to audit tax returns, and the related accounting records on which they are based, and may issue reassessments based on their findings and carry out sectorial investigations.

Considering the participation accounts' part in general loan loss provision as expense for tax calculation, Finance Ministry initiated a sector-specific review. The relevant documents and calculations have been requested from the Bank. As of report date, there is no information or written report transmitted to the Bank.

Within the framework of the provision of Article 298/A of the Tax Procedure Law, the conditions required for inflation adjustment in the corporate tax calculation have been met as of the end of the 2021 calendar year. However, with the regulation made by Law No. 7352 dated January 20, 2022, the inflation adjustment application in the corporate tax calculation was postponed to 2023. Accordingly, The TPL financial statements for the 2021 and 2022 accounting periods have not been subject to inflation correction. Financial statements dated December 31, 2023, the profit/loss difference resulting from the inflation correction will be shown in the previous years' profit/loss account and will not be subject to tax.

With the law number 7491 published in the Official Gazette numbered 32413 dated December 28, 2023, banks, payment and electronic money institutions, asset management companies, capital market institutions, insurance and reinsurance companies and pension companies will be subject to inflation adjustments in the 2024 accounting periods. It is regulated that the resulting profits or losses will not be considered in determining the corporate tax base. Within the scope of temporary Article 37 added to the Tax Procedure Law published in the Official Gazette dated December 25, 2025; even if the conditions in Article 298 of the Tax Procedure Law are met in 2025, 2026, and 2027, no inflation adjustment will be made. This regulation entered into force on December 25, 2025. Within the scope of the temporary article 32 of the Tax Procedure Law Numbered 213, depreciable assets were revalued and additional tax amount of 2% is levied over the revaluation difference. Assets that are included in the scope pursuant to duplicate article 298 are valued with the revaluation rate announced in the relevant year and no tax is levied over this revaluation increase.

Domestic Minimum Corporate Tax Regulation

Türkiye has implemented the Domestic Minimum Corporate Tax through the laws published in the Official Gazette on August 2, 2024. This tax will be applied starting from the 2025 fiscal year. With the Law No. 7524, the Minimum Corporate Tax system has been introduced, and it stipulates that the calculated corporate tax, before deductions and exemptions, cannot be less than 10% of the corporate income. The regulation will come into effect on the publication date and will apply to corporate profits for the 2025 tax period. Additionally, the Corporate Tax General Communiqué No. 23 has been published on the subject.

(Thousand of Turkish Lira (TL) unless otherwise stated)

XVI. Explanations on taxation (continued):

Deferred tax:

The Bank calculates and accounts for deferred income taxes for temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in these financial statements in accordance with TAS 12 "Turkish Accounting Standard for Income Taxes". Deferred tax asset is calculated on all temporary differences to the extent that is probable that taxable profit will be available and deferred tax liability is calculated for all temporary differences. Deferred tax asset and liabilities are represented in the accompanying financial statements on a net basis. In the deferred tax calculation, the enacted tax rate is used as of the balance sheet date by estimating when the temporary differences will be taxable / deductible in accordance with the current tax legislation.

Deferred tax asset had not been provided over provisions for possible risks and general loan loss provisions according to the circular of BRSA numbered BRSA.DZM.2/13/1-a-3 and dated 8 December 2004. However, deferred tax rate calculation has started to be measured over temporary expected provision losses differences according to TFRS 9 articles from 1 January 2018. Deferred tax calculation is not made for free provisions.

As explained in detailed note under "XVII Additional explanations on borrowings", deferred tax is calculated for exchange difference and coupon payment for Tier 1 under equity and deferred tax expenses. If loss occurs in the income statement prepared as per Turkish Tax Legislation, The Bank recognizes deferred tax. While making this calculation, The Bank's growth projections in its budget, reinforceable estimates on income statement and expectations on inflation, currency and interest rates by Central Bank of Türkiye are considered.

Law No. 7491 on the Amendment of Certain Laws and Decree Laws The profit / loss due to the inflation adjustment to be made in the differences of the 2024 and 2025 accounting periods will be excluded from the determination of earnings. In accordance with the TPL General Communiqué No. 560 published in the Official Gazette dated 30 April 2024 and numbered 32532, it has been declared that it is appropriate not to implement inflation adjustment in the temporary tax period of the first accounting period of 2024. In accordance with the temporary Article 33 of the Tax Procedure Law, tax effects arising from the inflation adjustment of corporate tax are included in the deferred tax calculation as of March 31, 2026. As of March 31, 2026, deferred tax calculation has been made for assets and liabilities at a rate of 30%.

Transfer pricing:

Transfer pricing is regulated through the article 13 of Corporate Tax Law titled "Disguised Profit Distribution by way of Transfer Pricing". Detailed information for the practice regarding the subject is found in the "General Communiqué on Disguised Profit Distribution by way of Transfer Pricing". According to the related regulation, in the case of making purchase or sales of goods or services with related persons/corporations at a price that is determined against "the arm's length principle", the gain is considered to be distributed implicitly through transfer pricing and such distribution of gains is not deductible in calculation of corporate tax.

Global Minimum Corporate Tax

In September 2023, POA issued amendments to TAS 12, which introduce a mandatory exception in TAS 12 from recognizing and disclosing deferred tax assets and liabilities related to Pillar Two income taxes. The amendments clarify that TAS 12 applies to income taxes arising from tax laws enacted or substantively enacted to implement the Pillar Two Model Rules published by the Organization for Economic Cooperation and Development (OECD). The amendments also introduced targeted disclosure requirements for entities affected by the tax laws. The temporary exception from recognition and disclosure of information about deferred taxes and the requirement to disclose the application of the exception apply immediately and retrospectively upon issue of the amendments.

The exception regarding the non-recognition and non-disclosure of deferred taxes within this scope, as well as the provision that the exception has been applied, will be implemented with the publication of the change in the regulation.

Türkiye has begun to adopt the OECD's Global Minimum Corporate Tax regulations with a Law Proposal submitted to the Grand National Assembly of Türkiye on July 16, 2024. These regulations entered into force with Law No. 7524, published in the Official Gazette dated August 2, 2024, No. 32620. The relevant law was prepared based on the OECD regulations and is consistent with the said regulations. According to the law, two separate declarations must be made: the Local Minimum Corporate Tax declaration and the Global Minimum Corporate Tax declaration. The local and global minimum corporate tax rates are set at 15% in the aforementioned law. It is stipulated that the local minimum supplementary corporate tax must be declared and paid between the first and last days of the twelfth month following the month in which the tax period ends. The 2024 Local Minimum Supplementary Corporate Tax has been declared and does not give rise to any additional liability. The global minimum corporate tax is to be declared and paid by the last day of the fifteenth month following the month in which the accounting period closes, as stipulated. For the 2024 accounting period, returns shall be filed by the last day of the eighteenth month following the month in which the accounting period closes, and the taxes accrued shall be paid by the last day of the filing period. The Local and Global Minimum Supplementary Corporate Tax Implementation Circular regarding the relevant tax regulation was published on December 26, 2025. Declarations related to the aforementioned taxes shall be made on a country-by-country basis and shall include companies subject to consolidation, taking into account the exemptions, exemptions, and safe harbor regulations set forth in the law. It is believed that the relevant regulations will not have a significant impact on the Bank's financial position or performance.

XVII. Additional explanations on borrowings:

The Bank accounts its debt instruments in accordance with TFRS 9 “Financial Instruments”. In the following periods, all financial liabilities are carried at amortized cost by using the internal rate of return method. The Bank has no borrowings that require hedging techniques for accounting and revaluation of debt instruments and liabilities representing the borrowings.

There are no debt securities issued by the Bank. The Bank has issued borrowings through its subsidiary Bereket Varlık Kiralama A.Ş. and its structured entities Bereket One Ltd., Albaraka Sukuk Ltd., Albaraka CT One Ltd. and Albaraka Mtn Ltd.

The Bank has subordinated loans borrowed through sukuk issuance, which has unconvertible nature to the shares.

Additional tier 1 capital borrowings:

Undated sukuk transaction in foreign currency is issued and included in the additional capital account by the Bank’s structured entity “Bereket One Ltd”. Stated transaction evaluated as non-monetary item accordance with TAS 32.

XVIII. Explanations on issued share certificates:

Share issuance related to costs is recognized as expenses. Dividend income related with the equity shares are determined by the General Assembly of the Shareholders.

Weighted average number of shares outstanding is taken into account in the calculation of earnings per share. In case the number of shares increases by way of bonus issues as a result of the capital increases made by using the internal sources, the calculation of earnings per share is made by adjusting the weighted average number of shares, which were previously calculated as at the comparable periods. The adjustment means that the number of shares used in calculation is taken into consideration as if the bonus issue occurred at the beginning of the comparable period. In case such changes in the number of shares occur after the balance sheet date, but before the ratification of the financial statements to be published, the calculation of earnings per share are based on the number of new shares. The Bank’s earnings per share calculations taking place in the income statements are as follows:

	Current Period	Prior Period
Net profit/(loss) distributable to ordinary shareholders	903.788	7.846.456
Weighted average number of ordinary shares in issue (in thousands)	2.500.000	2.500.000
Earnings per share (full TL)	0,36152	3,13858

XIX. Explanations on acceptances and availed drafts:

Acceptances and availed drafts are realized simultaneously with the payment dates of the customers and they are presented as commitments in the off-balance sheet accounts.

XX. Explanations on government grants:

As of the balance sheet date, there are no government grants received by the Bank.

XXI. Explanations on segment reporting:

Business segment is a component of the Bank that engages in business activities from which the Bank may earn revenues and incur expenses, whose operating results are regularly reviewed by the Bank’s chief operating decision makers to make decisions about resources to be allocated to the segment and assess its performance, and for which discrete financial available.

Segment reporting is disclosed in Section Four, Note X.

XXII. Explanations on investments in associates, subsidiaries and joint ventures:

The subsidiaries and associates are accounted at cost less provisions for impairment losses (if any) in the unconsolidated financial statements accordance with TAS 27 “Turkish Accounting Standards for Individual Financial Statements”.

XXIII. Explanations on other matters:

None.

SECTION FOUR

Information on Financial Structure and Risk Management

I. Explanations on capital adequacy standard ratio:

Total capital and capital adequacy ratio have been calculated in accordance with the “Regulation on Equity of Banks” and “Regulation on Measurement and Assessment of Capital Adequacy of Banks”. As of March 31, 2026, the Bank’s total capital has been calculated as TL 43.510.040 and capital adequacy standard ratio is 15,77%. As of December 31, 2025, Bank’s total capital amounted to TL 43.089.169 and capital adequacy ratio was 18,95 %. The Bank’s capital adequacy standard ratio is above the minimum ratio required by the legislation.

NOTES RELATED TO UNCONSOLIDATED FINANCIAL STATEMENTS
AS OF MARCH 31, 2026

(Thousand of Turkish Lira (TL) unless otherwise stated)

I. Explanations on capital adequacy standard ratio (continued):

c. Information on reconciliation of total capital and equity:

The difference between Total Capital and Equity in the unconsolidated balance sheet mainly arises from Stage 1 and Stage 2 expected credit losses, debt instruments, and share issue premiums deemed suitable by the BRSA. In the calculation of Total Capital, Stage 1 and Stage 2 expected credit losses up to 1,25% of the credit risk is taken into consideration as Tier II Capital. On the other hand, in the calculation of the Total Capital, improvement costs for operating leases followed under tangible assets in the balance sheet, intangible assets and their related deferred tax liabilities and other items defined by the regulator are taken into consideration as amounts deducted from Total Capital.

II. Explanations on credit risk:

Not prepared in compliance with the Article 25 of the Communiqué “Financial Statements and Related Disclosures and Footnotes to be Announced to Public by Banks”.

III. Explanations on currency risk:

Foreign currency risk arises from the Bank’s possible exposure to the changes in foreign currencies.

- a.** The Bank is exposed to currency risks as a market risk and tries to balance the currency risks by avoiding to keep any long or short positions. The currency risk of the Bank is monitored on a daily basis. Net foreign currency position/shareholders’ equity ratio is also controlled on a daily basis. All foreign currency assets, liabilities and foreign currency forward transactions are taken into consideration while capital requirement to be employed for foreign currency risk is calculated. Standard Method used in legal reporting and amount subject to risk is calculated on a monthly basis.
- b.** The Bank does not have any derivative financial instruments held for hedging purposes.
- c.** As a result of the uncertainty and volatility in the markets, foreign currency position is kept at a balance, and accordingly, no currency risk is anticipated. The Bank takes necessary measures to keep the currency risk at a minimum level.
- ç** Foreign exchange buying rates of the last five working days before the balance sheet date as publicly announced by the Bank are as follows:

	USD	EUR
As of March 31, 2026 - Balance sheet evaluation rate	44,080	50,788

IV. Explanations on position risk of equity securities in banking book:

The Bank does not have any associate and subsidiary quoted at Borsa İstanbul.

The Bank's equity securities which are not quoted at Borsa İstanbul are recognized at fair values and if the fair values are not measured reliably, they are recognized at cost.

The equity securities under banking book calculated as per credit risk standard method amount to TL 182.613. 100% risk weight is applied to related whole amount (December 31, 2025: TL 167.138).

V. Explanations on liquidity risk:

Liquidity Risk is managed by Asset and Liability Committee ("ALCO") in line with risk management policies and risk appetite approved by the Board of Directors in order to take the necessary measures in a timely and correct manner against possible liquidity shortages that may result from market conditions and balance sheet structure of the Bank. Under stressed conditions, liquidity risk is managed within the Contingency Funding Plan framework.

The Board of Directors reviews the liquidity risk management strategy, policy and practices and approves the liquidity strategy and policies within the framework of risk management strategy and policies, ensures the effective of practice of policies and integrations with Bank's risk management strategy. The Board of Directors determines the basic metrics in liquidity risk measurement and monitoring. The Board of Directors establishes risk appetite of the Bank in liquidity risk management and identifies the risk limits in accordance with the risk appetite and reviews it regularly.

ALCO takes necessary decisions which will be executed by related departments by assessing the liquidity risk that the Bank is exposed to and considering the Bank's strategy and conditions of competition and pursues the implementations.

Risk Management Department defines the Bank's liquidity risk, measures and monitors the risks with liquidity risk measurement methods that are in compliance with legal legislation, presents measurement results periodically to related departments, committees and senior management. Risk Management Department coordinates related parties in order to ensure compliance of risk management process in accordance with the Bank's risk profile, operation environment and strategic plan with regulations.

The liquidity risk analysis and the important early warning signals are reported periodically to related senior management. Additionally, analysis and monitored internal reserve limit ratios related to liquidity risk are presented in ALCO report. Reserve limit ratios and alert levels approved by the Board of Directors are monitored and reported regularly to related parties.

The Bank's funding management is carried out in compliance with the ALCO decisions in the direction of the Fund Transfer Pricing ("FTP") committee. Funding and placement strategies are developed by assessing liquidity of the Bank. In liquidity risk, management actions that will be taken and procedures are determined by considering normal economic conditions and stress conditions.

Diversification of assets and liabilities is assured to be able to continuously meet the obligations, also taking into account the relevant currencies. Funding sources are monitored actively during identification of concentration risk related to funding. The Bank's funding base of funds collected and other borrowing transactions are diversified in order to prevent the concentration of a particular funding source. Factors that could trigger the sudden and significant run off in funds or impair the accessibility of the funding sources are analyzed.

In the context of TL and foreign currencies liquidity management, the Bank monitors the cash flows regarding assets and liabilities and forecasts the required liquidity in future periods. In cash flow analysis, stress is applied to items that affect the liquidity by volume and rate of change from a liquidity management point of view. Liquidity risk exposed by the Bank is managed by establishing risk appetite, effective control environment and closely monitoring by limits.

The results of liquidity risk stress testing are taken into consideration in the assessment of liquidity adequacy and identification of strategy, policy and procedures regarding liquidity risk and contingency funding plan is prepared within this framework. There exists "Liquidity Risk Management Contingency Funding Plan" in the Bank including mechanisms to prevent increase in liquidity risk during normal and liquidity crisis scenarios for different conditions and levels. Available liquidity sources are determined by considering the liquidity squeezes. Within the framework of this plan, the Bank monitors liquidity risk in terms of early warning indicators in each stress.

V. Explanations on liquidity risk (continued):

Liquidity coverage ratio is calculated by comparing the high quality liquid assets owned by the Bank to net cash outflow in 30 days maturity. Balance sheet accounts that are significant on the ratio can be listed as reserve requirements maintained at CBRT, marketable securities that are not subject to repurchase agreements or not given as collateral, banks receivables, funds collected, funds borrowed. The effect of these accounts on the liquidity coverage ratio is higher than other accounts, since these accounts have a higher share in liquid assets and net cash outflows.

High quality liquid assets consist of cash, deposits in central banks and securities considered as high quality liquid assets. Reserve deposits are included in high quality liquid assets, limited by the amount that is allowed by central bank to use in liquidity shortages. The Bank's high quality liquid assets are composed of 3,15% cash, 75,41% deposits in central banks and 21,44% securities considered as high quality liquid assets.

The Bank's main funding sources are funds collected, funds borrowed, borrowings from money market and subordinated loans. Funding source composition in report date is 67,41% funds collected, 32,59% funds borrowed, borrowings from money market and subordinated loans.

Cash flows of derivatives that will take place within 30 days are taken into account in calculation of liquidity coverage ratio. Cash outflows of derivatives that arise from margin obligations, are reflected to the results in accordance with the methodology articulated in the related legislation.

The Bank manages all the transactions with its foreign branches and subsidiaries consolidated in the framework of central bank, markets and related legislation of the country in which the institutions are located. Liquidity risk of the bank, its foreign branches and subsidiaries that are to be consolidated are managed within the regulatory limits and in accordance with group strategies. The liquidity positions of consolidated subsidiaries are continuously monitored by the Bank.

V. Explanations on liquidity risk (continued):

Net Stable Funding Ratio:

Net stable funding ratio (NSFR) is calculated by dividing the available stable funding amount by the required stable funding amount. Available stable funding includes the portion of banks' liabilities and capital that are expected to be permanent; and required stable funding refers to the portion of banks' on balance sheet assets and off-balance sheet liabilities that are expected to be refunded.

Available stable funding amount is calculated by summing the amounts to be found after applying the relevant consideration rates determined within the scope of the legislation to the amounts of banks' liabilities and capital items valued in accordance with IFRS. Required stable funding amount will be found after applying the relevant consideration rates determined within the scope of the legislation to the value calculated by deducting the special provisions set aside in accordance with the Regulation on the Procedures and Principles on the Classification of Loans and the Provisions from the amounts of the banks' on-balance sheet assets and off-balance sheet liabilities valued in accordance with IFRS.

The three-month simple arithmetic average of the consolidated and unconsolidated NSFR calculated monthly as of capital calculation periods as of March, June, September and December cannot be less than one hundred percent.

As of March 31, 2026, NSFR is calculated as 145,52% (previous period: 151,55%). Considering the amounts to which the consideration rate is applied, Capital items correspond to 15,06% of Available Stable Funding amount (previous period: 18,02%) and Real Person and Retail Customer Deposits corresponds to 50,50% of Available Stable Funding amount (previous period: 49,37%), where those two refers to items to which the highest consideration rates are applied within the scope of the legislation. Performing Receivables, which have the largest share in Required Stable Funding, constitute 59,04% (previous period: 55,78%) of Required Stable Fund amount. Factors such as the development of major balance sheet items such as Loans and Deposits, the change in balance sheet maturity structure and asset encumbrance are effective in the development of the ratio between the periods.

VI. Explanations on leverage ratio:

As of March 31, 2026, leverage ratio of the Bank calculated from the arithmetic average of the last three months is 5,28% (December 31, 2025: 5,26%). Leverage ratio is required to remain minimum 3% as per “Communiqué on Measurement and Evaluation for Leverage Ratios of Banks”. The reason for the difference in leverage ratio between current and previous period is that increase in average capital amount is higher than increase in average total risk amount.

	Current Period ^(*)	Prior Period ^(*)
Balance sheet assets		
1 Balance sheet assets (excluding derivative financial assets and credit derivatives, including collaterals)	495.553.111	449.385.982
2 (Assets deducted from Core capital)	(2.289.018)	(2.205.026)
3 Total risk amount of balance sheet assets (sum of lines 1 and 2)	493.264.093	447.180.956
Derivative financial assets and credit derivatives		
4 Cost of replenishment for derivative financial assets and credit derivatives	2.313.457	1.518.866
5 Potential credit risk amount of derivative financial assets and credit derivatives	429.022	362.656

SECTION FIVE

Explanations and notes on the unconsolidated financial statements

I. Explanations and notes related to assets:

1. a. Cash and balances with the Central Bank of Republic of Türkiye (CBRT):

	Current Period		Prior Period	
	TL	FC	TL	FC
Cash/Foreign currency	452.594	4.032.222	511.069	3.719.616
CBRT	20.923.571	52.536.148	27.064.751	50.025.384
Other(*)	358.930	8.228.645	591.685	5.239.319
Total	21.735.095	64.797.015	28.167.505	58.984.319

(*) Includes precious metals amounting to TL 4.800.558 (December 31, 2025: TL 1.767.011) and cash in transit amounting to TL 3.787.017 (December 31, 2025: TL 4.063.993) as of March 31, 2026.

b. Information related to CBRT:

	Current Period		Prior Period	
	TL	FC	TL	FC
Unrestricted demand deposit	9.347.540	6.249.841	15.957.156	5.453.665
Unrestricted time deposit	-	-	-	-
Restricted time deposit ^(*)	11.576.031	46.286.307	11.107.595	44.571.719
Total	20.923.571	52.536.148	27.064.751	50.025.384

(*) As of March 31, 2026, the reserve requirement held in standard gold is TL 19.782.847 (December 31, 2025: TL 15.117.959).

In accordance with the "Communiqué Regarding the Reserve Requirements numbered 2005/1", banks operating in Türkiye are required to maintain reserves in CBRT for TL and foreign currency liabilities. According to the Communiqué Regarding the Reserve Requirements, reserve requirements can be maintained in TL, USD and/or EURO and standard gold.

As of March 31, 2026, the Bank's applicable rates for Turkish lira required reserves are excluding accounts receiving exchange rate/price protection support from the Central Bank, between 0% and 20% (December 31, 2025: between 0% and 18%); for accounts receiving exchange rate/price protection support from the Central Bank, between 22% and 40% (December 31, 2025: between 22% and 40%); depending on the maturity structure for participation funds and other liabilities and the applicable rates for FX required reserves are between 3% and 30%, depending on the maturity structure of participation funds and other liabilities (December 31, 2025: 5% to 32%).

6. Information on loans (continued):

b. Information on standard loans and loans under close monitoring including restructured or rescheduled Loans:

b1. Detailed table for standard loans and loans under close monitoring including restructured or rescheduled loans:

Current Period	Loans Under Close Monitoring				
	Cash Loans	Standard Loans	Not Under the Scope of	Restructured	
				Restructuring or Rescheduling	Amendments to the Terms of Contracts
Loans					
Export loans	35.629.415		310.787	-	-
Import loans	13.961.662		64.478	-	-
Business loans ^(**)	84.443.216		2.236.035	3.634.928	5.052.884
Consumer loans	16.555.485		373.202	12.207	-
Credit cards	5.740.818		147.031	5.001	-
Loans given to financial sector	2.805.345		-	-	-
Other ^(*)	53.235.171		1.617.666	494.980	59.914
Other receivables	-		-	-	-
Total	212.371.112		4.749.199	4.147.116	5.112.798

(*) Details of other loans are provided below:

Commercial loans with installments	30.164.973
Other investment credits	5.946.478
Loans given to abroad	6.627.552
Profit and loss sharing investments ^(**)	11.901.137
Loans for purchase of marketable securities for customer	429.372
Other	338.219
Total	55.407.731

(**) As of March 31, 2026, the related balance consists of funds provided through three (3) profit and loss sharing investment projects. All of these projects are real estate development initiatives located in various regions of Istanbul. Income sharing of the profit and loss sharing projects is made at the end of the project or at the end of the stage/section, after netting the related cost accounts and calculating the net profit, within the framework of the profit and loss sharing agreement signed between the parties. Profit and loss partnership investments are treated as financial assets at fair value through profit or loss, and the net valuation gain amounting to TL 4.655.237 for 2025 between the project-based bank's risk and the assets based on independent valuation reports for that project is reflected in the statement of profit or loss. Total cumulative increase in value of investments in profit and loss partnerships amounting to TL 8.344.270.

II. Explanations and notes related to liabilities (continued):

8. Detailed explanations on number, maturity, profit share rate, creditor and option to convert to share certificates; if any; of subordinated loans:

Information on subordinated loans:

	Current Period		Prior Period	
	TL	FC	TL	FC
Debt instruments to be included in calculation of additional Tier I Capital	-	-	-	-
Subordinated loans	-	-	-	-
Subordinated debt instruments	-	-	-	-
Debt instruments to be included in calculation of Tier II Capital	-	19.042.724	-	18.624.498
Subordinated loans	-	19.042.724	-	18.624.498
Subordinated debt instruments	-	-	-	-
Total	-	19.042.724	-	18.624.498

The Bank has obtained subordinated loan on February 28, 2023 from the investors not resident in Türkiye through its structured entity Albaraka CT One Ltd amounting to USD 100.000.000 with 10 years maturity with a grace period of 5 years. The profit rate of the Subordinated Loan is 10 %.

On October 30, 2024, the Bank has completed the issuance of USD 120.000.000 Tier 2 Sukuk (Tier 2) in Tier 2 format from international markets through its structured entity Albaraka MTN Ltd. The total maturity of the issuance is 10 years with a call option at the end of 5 years and the coupon dividend rate is set at 7%.

The Bank, through its structured entity "Bereket One Ltd.", issued a non-maturity sukuk transaction amounting to USD 205,000,000 in accordance with the Basel III criteria listed on the Irish Stock Exchange, which was evaluated as a non-monetary item within the framework of TAS 32 and approved by the BRSA to be included in the additional tier 1 capital account as of February 20, 2018. The total maturity of the issuance is 10 years, the first call date of the sukuk transaction is February 20, 2023, with an annual dividend payment of 11,42% (10% per annum for the first 5 years, payable semi-annually). As of December 31, 2024, the Bank has started to monitor the Tier 1 sukuk transaction at historical cost under "other capital reserves" in equity, but after February 24, 2025, based on the BRSA's letter dated February 10, 2025 and numbered 9196, the Bank started to monitor the Tier 1 sukuk transaction in foreign currency under the Subordinated Loan item under liabilities.

9. Breakdown of items in other liabilities, which exceed 10% of the balance sheet total, and breakdown of items, which constitute at least 20% of grand total:

As of the balance sheet date, the Bank's other liabilities balance is TL 18.277.305 (December 31, 2025: TL 16.314.854) and does not exceed 10% of total liabilities.

II. Explanations and notes related to liabilities (continued):

10. Information on shareholders' equity:

a. Presentation of paid-in capital:

	Current Period	Prior Period
Common stock	2.500.000	2.500.000
Preferred stock	-	-

b. Paid-in capital amount, explanation as to whether the registered share capital system is applicable at the Bank and if so, amount of the registered share capital ceiling:

In the Boards of Directors dated November 30, 2022, it has been decided that authorized share capital is TL 5.000.000 between 2023 and 2027 (5 years). Following the applications to legal authorities and their approval, The Bank's text of amendment to the main contract has been approved in the General Assembly dated March 27, 2023.

Share Capital System	Paid-in Capital	Ceiling
Registered Capital	2.500.000	5.000.000

c. Information on the share capital increases during the period and their sources; other information on increased capital in the current period:

There is no share capital increase in the current period.

ç. Information on share capital increases from capital reserves during the current period:

There is no share capital increase from capital reserves during the current period.

d. Capital commitments in the last fiscal year and by the end of the following interim period, general purpose of these commitments and projected resources required to meet these commitments:

There are no capital commitments until the end of the last fiscal year and following interim period.

II. Explanations and notes related to liabilities (continued):

10. Information on shareholders' equity (continued):

e. Estimated effects on the shareholders equity of the Bank, of predictions to be made by taking into account previous period indicators regarding the Bank's income, profitability and liquidity, and uncertainties regarding such indicators:

The Bank continues its operations in a profitable manner and majority of the profits are kept in shareholders' equity through transfer to reserves. Moreover, the Bank's shareholders' equity is invested in liquid and earning assets.

f. Information on privileges given to stocks representing the capital:

There are no privileges given to stocks representing the capital.

g. Information on marketable securities valuation reserve:

	Current Period		Prior Period	
	TL	FC	TL	FC
From investments in associates, subsidiaries, and joint ventures	-	-		
Valuation difference (*)	(1.978)	154.167	(79.033)	375.501
Foreign exchange difference	-	-		
Total	(1.978)	154.167	(79.033)	375.501

(*) The amount represents the net balance after deferred tax calculation.

ğ) Information on other capital reserves:

As of December 31, 2024, the Bank has been monitoring the Tier 1 sukuk transaction amounting to USD 205.000.000 under "other capital reserves" in equity at historical cost, but after February 24, 2025, based on the approval of the BRSA, the Bank started to monitor it in foreign currency under the Subordinated Loan item under liabilities.

h) Information on profit distribution:

At the Ordinary General Assembly meeting held on March 27, 2026, the Bank decided to set aside reserves and TL 52.951 as tier II legal reserves from the net profit for the period in accordance with Article 519/1 of the Turkish Commercial Code No. 6102, to distribute gross TL 125.000 and TL 529.505 to the shareholders as the first and second cash dividends, respectively, and the remaining net profit amounting to TL 5.831.085 to be transferred to the Extraordinary Reserves account in order to support capital adequacy, and the dividend distribution was realized on April 15, 2026.

2. Message from the Chairman of the Board:

Dear Stakeholders,

In the first quarter of 2026, the global economy faced a volatile outlook amid rising geopolitical tensions and volatility in energy markets. The uncertainties created by the conflict environment have complicated economic decision-making processes not only regionally but globally; fragility in energy markets has kept Brent crude oil prices high. This significant surge in energy costs has amplified production and logistics costs worldwide, intensifying inflationary pressures.

Under these conditions, major central banks have maintained contractionary monetary policies in line with the goal of preserving price stability; the persistence of tight financial conditions has limited global liquidity and weakened risk appetite. The increasing environment of uncertainty has led to fluctuations in precious metal prices and occasional sharp movements in emerging market assets. In light of these developments, the International Monetary Fund (IMF) has revised the global growth outlook downward, forecasting that global growth will decline from 3.4% in 2025 to 3.1% in 2026. This scenario indicates that the global economy is proceeding on a more cautious path driven by geopolitical tensions.

In this challenging global conjuncture, the Turkish economy has resolutely maintained its tight monetary policy stance; the balancing of domestic demand, exchange rate stability, and macro-prudential measures have supported the disinflation process. Combating inflation has remained at the core of economic policies; as a result of the implemented policies, annual inflation receded to 30.87% as of March 2026, whereas it rose to 32.4% in April 2026 due to the impact of rising energy costs driven by geopolitical developments and the increase in food inflation. The revision of Türkiye's 2026 growth forecast from 3.7% to 3.4% in the International Monetary Fund's (IMF) April 2026 World Economic Outlook report reflects the pressure of rising global energy prices and war-induced supply disruptions on economic activity. Nevertheless, the IMF emphasizes that stability in the medium-term outlook is being preserved, forecasting that Türkiye will return to a 3.5% growth trajectory in 2027.

The banking sector, which is one of the key drivers of growth in the Turkish economy, continues to support it in 2026. Participation banking, one of the vital stakeholders of this support, accounted for 9.5% of the banking sector as of March 2026.

While our Bank takes the necessary steps to maintain high asset quality and sustainable profitability during this period, it also continues to invest resolutely in the domain of digitalization, which is becoming increasingly significant. As Albaraka Türk, with the awareness and responsibility of being Türkiye's first and pioneering participation bank, we continue to meet our customers' financial needs under all conditions. With our vision to "be the reliable, innovative, and digital pioneer of participation finance," we will continue to take firm steps through further growth.

As Albaraka Türk, we will continue our mission of contributing to sustainable growth and development with the same determination in the future. On this occasion, I would like to express my heartfelt gratitude to my colleagues, our shareholders, and all our other stakeholders for their contributions to our success.

Sincerely,

Houssef BEN HAJ AMOR

Chairman of Board Member

Explanations on the interim activity report (continued):

3. Message from the General Manager:

Dear Stakeholders,

In the first quarter of 2026, the global economy presented an outlook characterized by intensifying geopolitical tensions and increased volatility in energy markets. Uncertainties regarding energy supply and regional conflicts exerted upward pressure, particularly on oil and natural gas prices; the fact that average energy costs exceeded projections at the beginning of the year has become one of the fundamental elements reshaping the global inflation outlook and macroeconomic expectations.

During this period, the European Central Bank (ECB) maintained its cautious monetary policy stance despite inflation having converged toward the medium-term target, as annual inflation was recorded at 2.6% in March. The US Federal Reserve (FED) also maintained its tight monetary policy stance as inflation remained above the target; expectations for interest rate cuts have been postponed to a later period. Under this outlook, global financial conditions remained tight, and the weakening of risk appetite led to volatility in emerging market assets.

The Turkish economy has continued its balancing process against external uncertainties during the first quarter of the year. The cautious stance exhibited by the Central Bank of the Republic of Türkiye (CBRT), which kept the policy rate steady at 37%, has contributed to preserving the disinflation path. The limited decline in annual inflation, which stood at 30.87% at the end of March 2026 compared to year-end levels, combined with the balancing of domestic demand, has supported a gradual normalization in pricing behaviors. Due to the high trend in food inflation and the impact of rising energy prices, annual inflation was announced as 32.4% in April, showing an upward trend. The implementation of the "eşel mobil" (sliding scale) system by the public sector, aimed at limiting the impact of rising global energy costs on domestic dynamics, has emerged as a step that mitigates distortions in pricing behaviors. While PMI data indicates that the weakness in the manufacturing sector persists, the increasing energy costs in the current account balance remain a factor that needs to be closely monitored in the upcoming period.

The Turkish banking sector, the largest stakeholder in the economy, continues to show higher growth rates in 2026 than in the previous year, following moderate growth in 2025. In March 2026, total funded credits granted in the sector reached TL 26.3 trillion, an increase of 7.8% compared to the end of 2025, while participation banking reached TL 2.4 trillion with a 7.5% increase in the same period. The non-performing loan (NPL) ratio in the banking sector rose slightly due to tight monetary policy and a more moderate outlook for economic activity, rising 65 basis points from the same period last year to 2.49% as of March 2026.

Our Bank's total assets reached TL 499.8 billion in the first quarter of 2026, an increase of 7.2% from the end of 2025. During the same period, the total of our funded credits and financial lease receivables increased by 8.6% to TL 257.2 billion. Funds collected through participation accounts and special current accounts reached TL 301.1 billion as of March 2026. As of March 2026, our Bank's net profit, excluding free provisions set aside in the first quarter of 2025, increased by 7% to TL 903.8 million compared to the same period last year. In the first quarter of 2026, we continued to reflect the success we demonstrated in profitability figures in our asset quality and capital ratios. Our non-performing loan ratio diverged positively from the banking sector average to 1.84% in March 2026, and our capital adequacy ratio reached 15.8% as of March 2026.

In line with our Bank's vision and mission, we continue our operations in 2026 without slowing down. We are strengthening our customer-centric approach to better meet our customers' needs, in line with the principles and values of participatory finance. On this journey, by increasing our investments in digitalization, we remain determined to make our financial services more accessible, innovative, and user-friendly. At the same time, by expanding our sustainability-oriented projects, we continue to fulfill our responsibility toward society and the environment; we adopt an approach that seeks social benefit while creating economic value. I would like to thank all my teammates and our valued stakeholders for building our successes together, and I offer my sincerest regards.

Sincerely,

Malek Khodr TEMSAH

General Manager and Board Member
