

ALBARAKA TURK PARTICIPATION BANK CONDUCTS GLOBAL FIXED INCOME INVESTOR UPDATE

Albaraka Turk Participation Bank, Turkey's oldest sharia-compliant lender, conducted a global fixed income investor update from the 10th – 14th of September. The bank's General Manager Melikşah UTKU, and Assistant General Manager for Treasury, Financial Institutions, and Investment Banking, Malek TEMSAH, met with fixed income investors in Singapore, Dubai, and London. Commenting on the roadshow, Melikşah UTKU stated: "Our update meetings with investors have become an annual occurrence that we attach particular significance to as it enables us to re-inforce our commitment to sustainable engagement and promoting transparent dialogue between our investor community and the bank. Given the recent events that have unfolded and the continued interest of investors to acquire a better bottom-up understanding of these developments and their implications, we believe the timing of our non-deal road show is even more relevant and critical."

The bank's executives discussed a host of issues with investors ranging from Albaraka Turk's recently announced financials to the macroeconomic environment, recent developments, and the overall outlook moving forward.

Albaraka Turk appointed Emirates NBD Capital as the sole coordinator for the investor update.
